THE RENT REDUCTION MOVEMENT

Sometime ago, the Executive Yuan called a meeting at which officials of the Ministry of Finance, the Ministry of Industry, the Shanghai City Government and the Nanking City Government drew up a set of regulations governing the solution of disputes over house rent. The Shanghai City Government then asked the local Tangpu and the City Government Council to state their views on these regulations.

On December 18, the City Government Council held a meeting to examine the regulations, at which Wong Shiao Lai (王少萊), Doo Yuet Sun (杜月笙) and others were present.

The request made by the Shanghai Citizens Federation to the effect that the standard house rent be fixed at 5 per cent of the combined value of the land on which the house stands and the cost of the construction of the house was approved. It was also decided that all other charges are to be prohibited.

Bob Mackay, S.1

Between 3.15 p.m. and 4 p.m. on November 2, fifty-four Chinese claiming to represent various sections of the Federation of Rent Reduction Movement Committees of Various Districts in Shanghai, 13 Station Road, Chapei, held a meeting in the Ming Sung Middle School, 14 Nan Ling Li (南林里), Singkiang Road, Chapei, Zung Chien-pu (鄭劍波) presiding.

The primary discussion affected a rival organization, the Rent Reduction Federation of All Tenants in Shanghai, 173 Chun Ka Zah Road, Chapei, and the meeting resolved to approach the local Kuomintang and the Bureau of Social Affairs in regard to its activities. Apparently this organization has attempted to compel local residents to join their movement on payment of an entrance fee, and has also distributed propaganda opposing the Federation of Rent Reduction Movement Committees of Various Districts in Shanghai.

Discussions were then held in regard to the rent reduction movement, and it was decided that :-

1. In the event of landlords failing to grant reductions in rent, all payments <sup>due</sup> to them be withheld and the money banked ~~deposited in a bank~~.
2. That the case of the sub-tenants of Shou Ping Li (壽品里), Ward Road, be referred to the Eastern District Rent Reduction Movement Committee of the Federation, 44 Feng Yuan Li, Tongshan Road. These sub-tenants have appealed to the Federation for assistance in opposing their first tenants, who are attempting to eject them as they have not paid their rents.

REPORT

Subject The rent reduction movement and the tenants of  
S. A. Hardeen & Co.  
Made by D.P.S. Mackay. Forwarded by Bob Everett

With reference to the attached cutting from the "China Press" of October 15, I have to report that for some time past the tenants of Hardeen & Co. along Nanking Road have been agitating for a reduction in their rents. As no such reduction was forthcoming, the tenants decided to suspend payment of rent, and coercion by employees of the Company failed to have any effect.

The Hardeen Company then selected the San Yih Silk Store, 463 Nanking Road, as an example, and on September 20 applied to the Special District Court for attachment of the property of the store. The following day the proprietor of the store, to avert attachment of his property, appeared in Court and deposited \$2250, representing three months' rent on his premises, with the Court. It is understood that the Court paid over this sum to the landlords. Hardeen & Co. then notified their tenants that all rents more than four months in arrears should be paid by October 13, failing which legal proceedings would be instituted.

None of the tenants, most of whom are three to six months in arrears, have paid; no legal action has yet been taken by Hardeen & Co., although it is understood that they intend to do so within the course of the next few days.

D.I. Pan Lein-pih and C.D.S. 156 assisted in obtaining the information which forms the basis of this report.

## Tenants Of Hardoon Fail To Pay Up

Renters On Nanking Rd.  
Still Determined As  
Deadline Passes

**NO EFFORTS MADE  
TO COMPROMISE**

**Boycott By Chinese  
Shop-keepers Is  
Hinted**

With yesterday set as the deadline by the S. A. Hardoon Company for the payment of rents in arrears by tenants of Hardoon shops and store spaces on Nanking Road, legal action of an almost unprecedented nature in Shanghai is expected to ensue during the next few days. The tenants, according to information obtained by a CHINA PRESS reporter yesterday, didn't pay up.

Officials of the Hardoon Company could not be reached last night, hence nothing definite could be learned of their plans. When they last discussed the matter, however, they were emphatic in statements that they would sue provided the rents were not paid on the scheduled time.

A committee member of the First Special District Rent Reduction Association, however, declared that the attitude of the tenants on Nanking Road toward the Hardoon concern remained just what it was three and four weeks ago. No efforts at compromise have been made, he declared, adding that none will be made until the landlord concern decides to follow the lead of other Shanghai landlords by reducing rents.

He pointed out that in other sections of the city, in the French Concession, the Settlement and in Chinese-controlled territory, landlords have reduced rents rather than to see their properties unoccupied. He expressed the belief that the threat made by the Hardoon Company to seal the premises of firms refusing to pay their rents on Nanking Road would hardly work to an advantage for the Hardoons.

He continued that in his opinion, the local Government has no right such heavy steps for rent reduction. He said that the Government should work to an advantage for the Hardoons.

### Hardoon & Co. Opens Hostilities Against Tenants

The uncompromising attitude the Hardoon & Co. took in the protracted dispute with its tenants in regard to rent reduction came to a climax last Saturday when three suits have been filed with the First Special District court to the amount of Dol. 15,772 claimed to be rent in arrears due from the Foo Loo Zoo Confectioners, the Tuck Lee Watch Company and the San Yik Silk Store, all of Nan-king Road. One of this concerns is said to owe eight months' rent and the other two to three months'. The hearing is scheduled to take place shortly.

All negotiations with the Hardoon & Co. have failed as the firm refused to lower the rents. It is reported that this is a trial balloon the firm not intending to take legal action against other tenants preferring to wait the judgment in these three suits.

Made by D.P.S. Mackay

In September 1935, the Zung Chow (神州) motel,

159 Chekiang Road, landlords, sued their tenant, the mei yuan (梅園) Restaurant, 621 - 623, Foochow Road, in the Special District Court for five months' arrears of rent. On October 26 the Court ordered the landlords to reduce the rent by 20%, retroactive from April 1, 1935, and the tenant was instructed to pay off the arrears.

Some years ago this restaurant rented five shop premises from the hotel at \$928.00 per mensem. In October 1932, the rent was increased by 20% and a contract was signed by both parties that this rental of \$1,113.60 per mensem should remain in force for a period of ten years. In March this year the tenant requested the landlord to reduce this sum by 50% giving as his reasons the existing business depression. As no reply was given by the landlords, the tenant withheld payment of rent for the months of April, May, June, July and August.

About 300 persons claiming to be promoters of the Rent Reduction Federation of All Tenants in Shanghai whose office is in the Chungshan Guild, No.173 Chun Ka Zah Road, off Jukong Road, Chapei, held their first general meeting at the above address between 2 p.m. and 3.30 p.m. October 21. The meeting had originally been scheduled to take place at the Kwangtung Theatre, North Szechuen Road.

Wu Tse Wan (吳子垣), a member of the Chungshan Guild, who presided, in the course of a speech stated that the rent reduction associations in Shanghai already in existence had failed in their duty with the result that the rent reduction movement has had no result. He declared that the principal aim of the promoters in organizing the Federation was to enable the people to secure relief from their financial burdens.

The following resolutions were then passed :-

1. That the regulations of the Federation (37 in number) be passed.
2. That the work of canvassing members for the Federation be expanded.
3. That the Authorities and various circles be requested to render assistance to the rent reduction movement.

Subsequently the following 21 persons were elected to serve on a temporary Executive Committee of the Federation :-

At 5.30 p.m. a manifesto and a circular telegram bearing on the meeting were issued.

This Federation<sup>is</sup> apparently being formed in opposition to the Shanghai Municipality Rent Reduction Movement Committee whose office is in the Chinese Chamber of Commerce. In a special issue of a news sheet published by this Federation on the occasion of the general meeting appears a letter addressed to the Federation by the Pao Shing Li (Chapei) Rent Reduction Section denouncing the Shanghai Municipality Rent Reduction Movement Committee in the Chinese Chamber of Commerce and alleging that it has arranged a compromise with the landlords, and that Hu Yih Poo (胡一波), Wei Long Shien (章朗軒), and Yih Chi-chong (葉其昌), members of the Shanghai Municipality Rent Reduction Movement Committee, had made money out of the rent reduction movement.

The news sheet also contained an item to the effect that representatives of the Tangpu and the Social Bureau would attend and deliver addresses, but it is significant that none of these officials were present; furthermore, the proceedings had to be considerably shortened because the promoters had failed to secure

permission to hold the meeting.

At about 2 p.m. prior to the meeting, a motor car bearing licence No. 11903 deposited two foreign gentlemen and a lady in front of the Kwangtung Theatre. The party was directed to the Chunshan Guild. They remained at the meeting for about 30 minutes only, leaving behind a Chinese interpreter to listen to the proceedings to the end.

The names of the members of the party have been ascertained. They are :

Mr. H.M. Bell, No. 911 Avenue Joffre, proprietor of the American Corsets Co. at that address.

Mr. H.I. Shohor, No. 919 Avenue Joffre, proprietor of Shohor's Pharmacy at that address.

Mrs. Lily Carr, No. 917 Avenue Joffre, proprietor of the Lily Salon at this address.

When asked whom or what interests they represented, Mr. Bell evaded the question. Mrs. Carr simply replied, "Tenants."

Clerk Liao Chung-chien rendered valuable assistance in this assignment.

In the afternoon of September 18, Mr. A.H. Hatherly, Land and Estate Agent, 50 Miukiang Road, called at Police Headquarters and reported that on September 17 a man named Chang Dao-doong (常道同) had visited his office and presented a letter from the 2nd Special District Rent Reduction Movement Committee of the 2nd Special District Citizens' Federation, the contents of which referred to the question of reduction of rents for the Estate Agency's houses in the French Concession. Chang, who was represented in the letter as a secretary of the Rent Reduction Committee, proposed to Mr. Hatherly that if he would agree to the payment of \$2 to the Committee for each house the agency represented in the Concession, he would undertake the task of persuading recalcitrant tenants to pay their rents without delay.

This proposition was rejected by Mr. Hatherly who feels indignant regarding the methods of the Rent Reduction Committee, and looks upon the matter as a form of black-mail. His visit to Police Headquarters was merely to inform the Settlement Police of the incident as he is taking the case up with the French Police.

On August 22, information was received that in connection with the Rent Reduction Propaganda Week to be conducted by the Rent Reduction Committee of the 1st Special District between August 25 and 31, theatrical performances were to be staged during the inauguration meeting to be held in the hall of the Ningpo Fellow Countrymen's Association, 480, Thibet Road, on August 25, and that handbills containing propaganda relating to the rent reduction movement were to be thrown from aeroplanes flying over the Settlement and handbills and posters distributed and posted in various districts of the Settlement.

At 4.30 p.m. August 23, Mr. Li Ngan-kuei (李乾奎), a member of the Standing Committee of the Rent Reduction Movement Committee of the 1st Special District, was interviewed by D.I. Everest and D.I. Sih Tse-liang in the office of the Committee in the Chinese Chamber of Commerce, North Soochow Road. It was explained to Mr. Li that it would be advisable if his committee obtained the permission of the Municipal Council before holding the theatrical entertainment in the Ningpo Fellow Countrymen's Association on August 25, and that the proposal of the Committee to distribute handbills and posters on the streets, did not meet with the approval of the Municipal Police. Mr. Li was also informed that although the Municipal Police had no cause for complaint against the rent reduction movement, the distribution of handbills either from aeroplanes or by individuals was a movement which smacked of agitation and was therefore deemed unadvisable. In reply Mr. Li Ngan-kuei stated that he agreed with these views and promised

to confer with his fellow committee members on the subject, following which he would communicate with this office.

At 10 a.m. to-day, August 24, word was received from Mr. Li that the Rent Reduction Movement Committee had decided to cancel their decision to distribute handbills from aeroplanes and on the streets of the Settlement, and would only distribute handbills to members during the course of the inauguration meeting to be held on August 25 and posters to those members owning shops for displaying on the premises.

Regarding the question of applying to the Council for permission to hold the theatrical performances during the inauguration meeting on August 25, Mr. Li expressed regret that the Committee had decided not to make any such application for the sole reason that such procedure had never been adopted in the past in respect of theatrical entertainments held in the premises of the Ningpo fellow Countrymen's Association.

Mr. Anzai, No. 192 Minghong Road, representing some 80 Japanese tenants of a block of houses along Boone, Nanzing, Miller and Minghong roads, has opened negotiations with Mr. Hardoon, the landlord, for the wholesale reduction of the house rent by 15%. The rent ranges between \$42.00 and \$115.00 per mensem.

It is learned that the landlord has agreed to grant as from June, 1935 a reduction of 15% to houses facing main roads and of 7½% to those in alleyways. The tenants owing rent in arrears will not be entitled to enjoy the privilege.

The negotiations still continue at present. All the Japanese tenants have withheld the payment of rent for the month of May.

There are some 40 Chinese tenants in this block of houses who are also contemplating submitting a demand to the landlord in a body.

MOVEMENT COMMITTEE

The other day, the Rent Reduction Movement Committee sent a petition to General Chiang Kai Shek, Chief of the Military Affairs Commission of the National Government, requesting him to instruct the Shanghai City Government to promulgate measures governing a reduction in house rent immediately.

The Committee received a reply from General Chiang Kai Shek at Nanchang yesterday, stating that the Shanghai City Government has already been instructed to act according to the request of the Committee.

WARNING

Landlords are firmly refusing to reduce the rents in an endeavour to bend the tenants to their will. Under

such conditions, they do not think of co-operating with the tenants for better mutual existence. As a result, it is now almost too late for the landlords to change their minds, which if they do not do, will lead to mutual ruin of both landlord and tenant.

Sir,

At 2.40 p.m. 10-11-34 C.D.S. 80 attached to Kashing Road Station brought to this station two male Chinese named Long Zai Dong (王仁堂) and Zung Nyoh Zau (中文善) both residing at No. 1 An Ping Lee, Nanzing Road. These two men were in possession of a number of special supplements and receipt books in connection with the Rent Reduction Movement, also two badges and a certificate of identification in regard to same.

Enquiries showed that these supplements which are under the heading "Shanghai Gai Tso Da Kai" are printed in Nantao, and are authorized by the Municipality of Greater Shanghai, Shanghai Education Bureau and Public Safety Bureau, the head office being in Nantao whilst sub-offices are at North Honan Road Temple and at Foochow Road.

On communicating with the association Headquarters office in Nantao it was learned that these two men and others are employed by the said association in selling these supplements in Chinese Territory and the Settlement for 10 cents each copy, the purpose being to circulate the idea of the Rent Reduction Movement. The money collected is handed in to the association head office in Nantao and is used in connection with expenses incurred by same.

These two men, whilst selling the papers in the Settlement, called at the home of C.D.S. 80 and asked if he wished to purchase one, he accordingly brought them to the station, where, after enquiries were conducted, they were released and allowed to take their papers and receipt books with them.

1. That the Shanghai municipality Rent Reduction Committee be asked to devise measures for an extensive demonstration in connection with the rent reduction movement.
2. That the same Committee be entrusted with the task of organizing appealing groups.

The rent reduction movement which started in January, 1934, by local public bodies continues throughout Shanghai under the rent reduction organizations in various districts. Although in many cases reductions in rent have been made by the landlords as a result of agitation carried out by the tenants, the majority of the disputes are up to the present still in abeyance. Attached is a list of alleyways the tenants of which have been granted a reduction in rent, as well as the scale of reduction in each case.

The local Kuomintang Headquarters has addressed a letter to the Shanghai City Government suggesting the following measures in settling local rent disputes:-

1. That should the tenants and landlords concerned in a dispute fail to reach a compromise among themselves, the case is to be referred to the City Government which will conduct mediation and decide the amount of rent it deems proper. The rent decided by the City Government, however, should not exceed the rentals at present in force.
2. That a dispute may be re-discussed on appeal made by the tenants or landlords concerned who are dissatisfied with the decision of the City Government, but the final ruling cannot be appealed against and must be complied with by both sides concerned.

The Commissioner of Police

SHANGHAI MUNICIPAL COUNCIL.

Dear Sir,

We are supplying you with the name and address of a certain Chinese gentleman who is to our knowledge one of the main agitators in the local rent reduction movement. His name is Ging Yoong Fong 岑永芳 and is residing at present in a matched bungalow un-numbered, next door to No.488, Yulin Road (Loong Zung Lee).

He very recently occupied one of our Hongs No.164, Loong Nee Lee on Fenshow Road, but with the assistance of the Chinese Court we were able to have him ejected, and he vacated our hong about a fortnight ago. We believe that when the Court had him ejected quite a number of pamphlets on the subject of rent reduction were found on the premises.

On account of his being forcibly turned out of his previous house, he is more than anxious to

retaliate against us with double vigour and he is doing a considerable amount of propaganda work at present amongst our tenants in three blocks of property, otherwise known as Cadastral Lots 3277, 3235, 3273, and 3202, Eastern District A. Our Police Watchman on the premises is familiar with this gentleman and will be willing to point him out to any of your representatives.

Any assistance you can give us in curbing his activities will be very much appreciated.

Six females and one male were subsequently arrested, the females being later released with a caution. The male culprit was charged with Public Insult and will appear before the Shanghai Special District Court on September 11.

The property in the Zang Loh Li is under the management of Brandt & Rodgers who have filed suit against certain tenants in the alleyway for 8 months arrears in rent.

Morning Translation.

China Times, Sin Wan Pao and other local newspapers:

POLICE AND RESIDENTS IN ZANG LO LI ALLEYWAY (常樂里)

Members of the Zang Lo Li (Dixwell Rd) Unit of the Rent Reduction Movement Committee are protesting against the oppression of tenants of houses Nos. 40 and 27 by the landlord who has requested the Court to seal up the two houses and to order the occupants to remove. House No. 40, which is occupied by Waung Ngho Zien (汪錦全), a native of Ningpo, was sealed up on September 6. On August 21, the Court ordered Chow Tieh Noon (周鉄震), occupant of house No. 27, to pay up the four of the eight months rent in arrears before August 30. Chow paid the rent for four months on August 29 in compliance with the Court's order and saved his house from being sealed up.

The Zang Lo Li Unit later called an urgent meeting and resolved to ask the Rent Reduction Movement Committee for assistance. The Committee sent a representative named Chang Yien Faung (方賢芳) to Brandt & Rodgers Ltd. (泰利公司), the representative of the landlord of the houses in Zang Lo Li, to mediate.

The management of Brandt & Rodgers, relying on the fact that it is a foreign firm, not only rejected the mediation, but filed an action in Court charging the tenants of Zang Lo Li with being criminals. At 4 p.m. yesterday, over ten Chinese and foreign detectives and policemen of Kashing Road Police Station, in three vans, proceeded to Zang Lo Li with workers and a large quantity of lumber to seal up the houses in the alleyway. The tenants obstructed the sealing up process. Somebody threw ordure at a Chinese policeman and trouble took place. Detectives and policemen assaulted the tenants with batons and drove them off. The following persons received injuries:-

An old woman named Waung (汪), native of Kwangtung, living in house No. 20 Zang Lo Li. (She was more seriously injured than the others.)

Waung Ngho Zien living in house No. 40.

Wife of Hu Yung Shing (胡小英), a tailor, living in house No. 42.

Wife and sister-in-law of Ma Hu Kwei (馬胡英) living in house No. 29.

Wong Yoch Ying (王育英) and her mother, native of Ningpo, living in house No. 20.

Hu Lai Sung (胡蘭生), his brother Hu Chai Sung (胡志生), the wife and daughter of Ma Hu Kwei and Wong Yoch Ying and her mother were taken to the Police Station where they were detained. Action will be taken when the Chinese policeman has been cleared of the ordure.

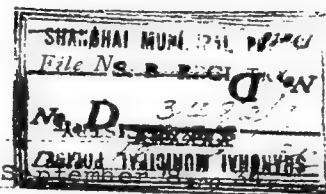

It is learned that in view of the arbitrary arrest and assault of innocent residents by the Police, which is contrary to law, the tenants of Zang Lo Li and the Rent Reduction Movement Committee held an urgent meeting at 7 p.m. yesterday at the Dah Sie Yang Restaurant (大西洋), Foochow Road, to discuss measures to deal with the situation.

Tenants of other alleyways who have started the movement but have not been granted a reduction in rent by their landlords continue to struggle by withholding payment of rentals, considered by them as the most effective means to gain their wishes.

It is worthy of note that the Shanghai Municipality Rent Reduction Committee, Chinese Chamber of Commerce building, North Soochow Road, which is considered as the organ directing the rent reduction movement in Shanghai has been more or less inactive since its inauguration in January, 1934. Nothing worthy of note has ever been accomplished at the meetings of this body nor have any definite measures to deal with the movement been formulated.

Nineteen members of the Shanghai Municipality Rent Reduction Committee held a meeting in their office between 4.15 p.m. and 6 p.m. July 6 and passed the following resolutions:

1. That endeavours be made to induce the landlord of the Chai Teh Li (泰德里), Point Road, to keep his promise to reduce the rentals.

Soong Faung (宋芳), resident of house No. 11  
Kong Nying Li, Macao Road, recently received a letter from  
a so-called "Investigation Group of the Rent Reduction  
Association". The correspondence, apart from accusing him  
of conducting secret negotiations with the landlords there-  
by obtaining a special privilege of being exempt from pay-  
ing the increase of \$1 in water charges, threatens drastic  
measures against him should he pay rent to the landlords while  
other tenants of the alleyway are agitating for reduction in  
rentals.

From enquiries made it was ascertained that the  
person in question was one among other tenants of the alley  
who led in an agitation against a decision of the landlords to  
increase the water charges by \$1 in November, 1933. Later he  
went to visit his native place but on his return to Shanghai,  
the above decision had been put into effect. Owing to dis-  
agreement with other tenants he has refrained from taking part

On June 1, Wong Ching Sung (王全成), residing at No. 266/7 Macao Road, received a letter purporting to emanate from the "Investigation Group of the City Rent Reduction Committee" threatening that a bomb would be thrown into his house on June 3 should he fail to have a rent reduction section organized by that date. No action, however, was taken to effect the above measure.

From enquiries made it was ascertained that the person, Wong, was formerly a committee member of the Preparatory Committee of the Joint Rent Reduction Section of Ng Foh Li (伍福里) (Lane 921), Tonquin Road, Ying Sih Li (应世里) (Lane 929), Tonquin Road, Kong Ning Li (康宁里) (Lane 272), Macao Road, and Tai Lai Faung (泰来坊) (Lane 335), Gordon Road, with an office at No. 4 Ying Sih Li, but had recently withdrawn from membership of the body owing to discordance with other committee members. The same person was also in receipt of a letter of a similar strain on May 28 and the door of his house was smeared with excrement on the night of May 30.

On June 5 and 6 distress warrants were served on the tenants of 63 houses of the Lee Zung Faung (志成坊) (Lane 1004) Broadway East, by the Judicial Police at the instance of the landlords for non-payment of rent for the last 5 months.

Three tenants were taken into custody by the Municipal Police on June 5 for interfering with the Judicial Police while executing the warrants and another 3 on June 6 for the same offence. They were, however, subsequently released after having been cautioned against such an action. These tenants have been agitating for a reduction of 20% in rent.

At 7 p.m. May 18, a number of tenants of the Zang Kong Li, Kaifeng Road, proceeded to the Joint Rent Reduction Section of the Zang Kong Li, Yue An Faung, Tuh Shing Faung (Kaifeng Road), and Yah Shing Li (Alabaster Road) at House No.341 of the 1st mentioned alleyway, where one of their number smashed a frame containing a picture of the late Dr. Sun Yat-sen. They alleged that the section was inefficient and that its inauguration had caused the issue of a notice by the landlords ordering the tenants of the Zang Kong Li to vacate their premises in order that they might be pulled down and rebuilt.

In connection with the above disturbance, 10 members of the 32nd Branch of the 1st Special District Citizens' Federation held a meeting in their office, 245 Yah Shing Li, Alabaster Road, and decided to instruct Wong Ah Pong (王阿胖), the ringleader, to tender an apology to the section for conducting illegal activities against the body. It was also resolved to request the landlords of the Zang Kong Li to postpone the demolition of the block for a further three years.

The Shanghai City Government Provisional Council, 87 Kiaochow Road, will convene a meeting of representatives of local public bodies for May 25 in its office to discuss the rent reduction movement in Shanghai.

It is reported that a compromise has been reached between the tenants and the landlords of Sing Nyi Faung, Rue Bourgeat, both agreeing the rentals of houses facing the street be increased by 10% and those in the alley by 5%. The landlords at first intended to increase the rent which

In consequence of the tenants of Lanes 308 and 358, Chaoufoong Road, refusing to comply with the agreement concluded between them and the landlords in 1933 that rentals be increased from \$5.00 to \$10.00 per mensem with effect from January, 1934, the latter issued on May 5 a notice instructing the tenants to vacate their premises before June 6, 1934. The tenants announced that they would not pay the increased rent at such a time when a general reduction in rent was being urged by residents throughout Shanghai.

Since the election of the Executive and Supervisory Committees of the Chapei District Rent Reduction Association on April 29, opposition has been raised by several rent reduction sub-offices who consider that the election was not carried out in a legal manner. Consequently the Association instructed the 7th and 8th Sub-offices, the two ring-leaders in the dispute, to suspend functioning alleging that they had collected excessive membership fees from the residents (Vide previous reports on subject). The high handed measure only led to further opposition from the majority of the sub-offices in Chapei, and their threat to withdraw from membership obliged the Association to close down on May 12 pending re-organization. The dispute has been referred to the Shanghai municipality Rent Reduction Committee.

On May 8 the Shanghai Water Works Company notified the tenants of the Bei Tuh Li Alleyway, Tatung Road, to sign contracts with the concern before May 10 for the installation of water meters in their respective houses. Their ignoring this notice, however, led to the disconnection of the water supply to the alley at 11 a.m. this morning, May 10.

It will<sup>be</sup>/recalled that the water supply to this alley was cut off on April 24 and re-connected on May 5 (Vide previous reports on subject).

The tenants are of the opinion that their water charges are included in the house rent, thus they are not prepared to sign contracts for the installation of water meters unless the landlords agree to reduce the rent by the amount charged for water supply.

They will hold an urgent meeting this evening either in House No. 106 Bei Tuh Li or in the Ming Zee (民族) Primary School, 106 North Chengtu Road, to discuss the dispute.

Sir,

I have to call your attention to trespass on the property of the Mission at No 35 Tatung Road by Chinese tenants in the vicinity. The water supply of these people has been cut by the Shanghai waterworks Co. and for the past three days they have been entering the Church ground and building and helping themselves to a supply of water.

While we did not object to their doing so for the first two days, it must be realised that unless some remedy is found these people will carry on indefinitely.

I have therefore to request the good offices of the Police in preventing further trespassing on the Mission property both on the Church compound and on the girls school compound, right to the <sup>east</sup> ~~west~~ of the Church.

Yours sincerely.

Translation of a letter from 9th Branch Association of the 1st Special Area District Citizens' Federation of the Municipality of Greater Shanghai to Sinza Police Station.

April 28th, 1934.

To Sinza Police Station,

We beg to inform you that we have received verbal reports from the residents of Bei Tuh Li off Tatung Road, that the residents of more than one hundred houses in that alleyway suffered deep distress owing to the water being illegally cut off by the landlord, with the result that they have had no water supply for four days. Therefore they requested us for assistance.

In consequence of the above we know that the public life depends on water, which is necessary for drinking. The landlord paid no attention to the public life and stopped the water supply, in case of fire occurring, not only the life of more than one thousand people in that alleyway will be endangered but also the public in general, so that we consider this a very important matter. For the purpose of procuring public safety we inform you of the above circumstance and request you to take the responsibility for protecting the citizens in your district, then you will immediately notify the Water Works to turn on the water supply for the public safety and prevent the landlord from doing any unlawful action, pending settlement. It is in the interests of public life and safety, we write this letter to you and hope you will deal with this matter with preasure.

It is reported that the landlords of the Pao Wha Li, Singkeepang Road, have agreed to postpone the demolition of the block to the end of June. The premises were to be pulled down at the end of March (Vide previous report on subject), but owing to opposition on the part of the tenants, the scheme failed to materialize.

Some 40 persons who claimed to be representatives of various alleyways in Kaifeng and Alabaster Roads held a meeting in the office of the 32nd Sub-office of the Settlement District Rent Reduction Association, 341 Kaifeng Road, between 7.30 p.m. and 9 p.m. April 26 and passed the following resolutions:-

1. That various alleyways in the area be instructed to organize rent reduction sections without further delay.
2. That tenants be requested to subscribe contributions voluntarily for the maintenance of the Sub-Office.
3. That another meeting of representatives of tenants be held on May 2.

The Jui Tuh Girls School, 33 Bei Tuh Li, Tatung Road, which suspended studies on April 26 to avoid possible disturbances which might be staged by the tenants of the alleyway, resumed functioning this morning, April 27.

The 1st Sub-Office of the Chapel District Rent Reduction Association was formally inaugurated on April 26 at No. 11 Zeu Woo Faung (王瑞和坊), Paoshan Road, Chapel.

At 4 p.m. April 25, some 150 tenants of the Bei Tuh Li Alleyway (北德路) with entrances on Tatung and Sinza Roads gathered before the Jui Tuh Girls School (朱德女校), No.33 established by the Catholic Mission in the same alley with a view to obtaining water from the institution, the water supply to which, they alleged, had been restored. Seeing the hostile attitude adopted by the tenants who threatened to assault the principal and teachers should they emerge from the school, the latter kept the pupils, some 1,000 in number, on the premises until about 5 p.m. when a party of police arrived on the scene and succeeded in dispersing the crowd, the school usually finishing at 4 p.m.

At 7 o'clock in the evening, some 30 tenants held a meeting in the office of the rent reduction section formed by them, House No.51 and passed the following resolutions:

1. That assistance be solicited from local public bodies in connection with the dispute.
2. That two lawyers be engaged to carry out negotiations with the landlords.

It is reported that the tenants are arranging to re-connect the water supply to the alleyway themselves.

The Jui Tuh School suspended studies this morning, April 26.

At 9.30 a.m. April 25, some 350 persons who claimed to be representatives of various sub-offices and sections of the Chapel District Rent Reduction Association proceeded on seven motor trucks to the Shanghai City Government at

A number of the tenants of the Bei Tuh Li Alleyway are now gathering before the Jiu Tuh Girls School in the alley established by the Catholic Mission with the intention to assault the students coming out from the institution.

It will be recalled that the water supply to this alley, the property of the Catholic Church, was cut off on April 24 (Vide the previous report on subject) by the landlords as a counter-measure against the tenants refusing to pay an extra \$2.00 for water charges.

In consequence of the tenants of the Bei Tuh Li alleyway, Tatung Road, refusing at first to comply with the order of the landlords to pay an extra \$2.00 for water charges and later rejecting the instalment of water meters in their houses, the water supply to the alley was disconnected on April 24 by order of the landlords. The tenants are at present using water from hydrants.

Posters bearing the slogans "Oppose the illegal disconnection of water supply by the landlords" and "Let the whole body of the tenants fight to a bitter end" were posted on walls of this block, on the morning of April 25.

Report re water supply being cut off from Bai Tuh Li Alleyway. (白土里弄)

At 9.20p.m. 24-4-54, two residents representatives of Bai Tuh Li Alleyway, Tatung Road, came to the Station and reported that the water supply had been cut off from the aforementioned alleyway. The Water Works were informed by telephone and they stated that the instructions to that effect had been received from the Revenue Office owing to the residents of the said alleyway were in default of revenue due. A hydrant was opened so that water could be obtained.

At 4p.m. 25-4-54, the residents of this alleyway approached Mere Marie de St. Renvit (沈本島母) of the Jeu Tuh Primary School, situated at No. 53 of the same alleyway for the purpose of getting water supply from inside the school, to which she refused and ordered that the school gates be closed. Owing to a large number of residents who had adopted an aggressive attitude at the entrance of the premises, as a result the students were unable to leave in fear of being subjected to rough treatment at the hands of the residents.

On arrival of Police the crowd dispersed and the students left the school premises under Police protection.

Further enquiries ascertained that three days ago, the landlord of the alleyway in question notified all the chief tenants that a water meter be put up at every house

Made by D.S. Mac Adie Forwarded by Wh Duncan D.S.

Attached letter from landlords of alleyways on Kaifeng Road appears to be somewhat exaggerated. The meeting which is reported in detail below was of a similar nature to those held by tenants of alleyways in various districts throughout Shanghai in furthering the rent reduction movement.

Between 2.30 p.m. and 4.30 p.m. April 22, some 30 persons who claimed to be representatives of the tenants of the Mah Shing Li (哈興里), and Zang Kong Li (張康里), Alabaster Road, and Yu Shing Faung (裕興坊) and Tuh Shing Faung (德興坊), Kaifeng Road, held a meeting in the Nanyang Girls School, No.1 Kaifeng Road. Tsang Kai Shou (張介壽), who presided, reported that arrangements had been made to form a rent reduction section and application for membership had been submitted to the Shanghai Municipality Rent Reduction Committee. The following decisions were discussed and passed:-

1. That a Preparatory Committee be established at No.341 Kaifeng Road.
2. That local residents be urged to demand that the landlords voluntarily reduce rentals.
3. That tenants who conspire with the landlords in an endeavour to break the movement be warned in the first instance and that should they again offend, they be proceeded against in Court on a charge of breaking the regulations of public organizations.

Kaifeng Road Landlords,  
Shanghai, April 22, 1934.

The Secretary,  
Shanghai Municipal Council,  
209 Kiangse Road, Shanghai.

Dear Sir,

We have to report to you that in the house No. Id 341 Kaifeng Road in the Northern District, an association of tenants for the reducing of house rent has been established, and that at about 2 o'clock this afternoon, more than 5 hundred tenants, west of North Chekiang Road, north of North Soochow Road, east of North Thibet Road, south of Haining Road, attended the meeting held in the Nanyang Primary School in Kaifeng Road at the end of Winchester Road, Cad. Lot \$1 in the Northern District.

"Knock down landlords. Not to pay the house rent, until we have attained our object." was heard at this afternoon meeting. We hear that they collect the membership fee, which ranges from 20 cents to \$1.50. Those who attended the meeting are members of this association. Of course, the tenants are glad to be the members.

We wonder why the Municipal Council does not interfere with, or prohibit the establishment of such associations in the foreign Settlement, as such associations as these are detrimental to the good order of the Settlement. Can you see your way to drive such associations out of the Settlement? If not, the Settlement will be ruined soon. We shall be glad to see your notification regarding this affair.

Yours very truly,

Sze Kung Kwei & 7

Other Kaifeng Road Landlords.

Made by and Forwarded by D.S.I. Duncan

Following the Sino-Japanese hostilities in 1932 a number of landlords <sup>suspended</sup> withheld collection of rent for 2 months and upwards from tenants who had suffered as a result of the hostilities. These cases, however, although occurring at the commencement of the Rent Reduction Movement cannot be regarded in the same light as those covered by the dispute as it now stands. The following is a list of cases which have come to the knowledge of the Police this year where payment of rent has been withheld and where reductions have been made by the landlords as a result of agitation by the tenants:-

1. Following an attempt on February 8 of the Judicial Police of the 2nd Special District Court to execute distress Warrants on the tenants of Nos. 45 and 47 Tao Teh Li, Avenue Foch, for non-payment of rentals for 3 months, the rent was paid into Court the same day. A similar case occurred at No. 1 Avenue Foch on February 5 with the same result.
2. The landlord of a block of houses in Shing Nyih Fang, off Scott Road, chiefly occupied by Japanese, reduced the rents from Tls. 60 to Tls. 50 in February.
3. In February the landlords of 50 new houses in the Tseu San Li, Chusan Road, reduced the rents by 10%.
4. On March 2, the landlords of the Heng Mei Li, Rue Wagner, agreed to reduce the rents by 10% as the result of demands for a reduction by the tenants.
5. In consequence of a suit filed by the landlords, distress warrants were served on March 8 on 22 houses (Lane 381, Houses Nos. 383-403 odd numbers only, and Lane 405, Houses Nos. 4-24 even numbers only) on Tientsin Road for arrears

6. On March 17, the landlords and tenants of the Tao Teh Li, Avenue Foch, French Concession, came to an agreement in settling the rent dispute when it was agreed to reduce the rent by \$5 per house per month.

7. The landlord of the Hung Mei Li, Boulevard de Montigny, reduced the rent of houses facing the street by 10% from March as a result of the agitation of the tenants.

8. About the beginning of April, tenants of 9 houses in the Sing Nyi Fang Alleyway, Rue Bourgeat were sued by the landlord for 3 months rent in arrears.

9. House Nos.10, 12, 55 and 69 of the Hung Shou Faung, Mapai Road, were sealed up by Court order about the beginning of April owing to non-payment of rent. Rentals of Nos.10 and 69 were subsequently paid and the seals removed.

10. At 10 a.m. April 20, representatives of the landlords (A.R. Burkill & Sons, 2 Canton Road) of No.420A Route Pere Robert, occupied by the Mei Lee Dry Cleaning & Dyeing Works instructed the inmates to vacate the premises in consequence of non-payment of rent. Dear Sir,

Rent Agitation

We are experiencing considerable trouble from rent agitation societies on our Boone Road property and our Wuchow Road property. Hand bills calling on our tenants to refuse to pay rent have been distributed and fees are being collected by these societies from the tenants.

We shall be greatly obliged if the police at Kashing Road Police Station and at the Hongkew Station may be warned, as it is possible we may have to get some of the agitators taken to the charge rooms at these two stations.

Sir,

Re the attached letter enquiries were made by the under-  
signed at the office of the 4th Branch Rent Reduction

ascertained.

The Association was organised by over 200 residents of  
the Vai San Li, Vai Sin Li and old Vai Sin Li in Thorborn

the sole object of negotiating with house owners to reduce  
the present house rent by 10% of shops and 20% of houses

of 10% with the former and 12.5% with the latter.

The chairman of the Association is Sun Vei Tuh (范維德)  
who is the proprietor of the Sui Chong Sing (瑞昌生) candle

Subject Re Rent Reduction Dispute.  
(Entry in Occurrence Book 5.05 p.m. 11-9-35).

Made by Insp. Mac Farlane

Forwarded by R. DeBuccell 611c

Sir,

With reference to the above, I beg to report that at 5.05 p.m. 11-9-35, a male Chinese named Sung Wung Yee, representative of the Sai Yih Silk Co., 463 Hanking Road, came to the station and reported that representatives of the Hardeon Rent Office were at their shop and were preventing customers from entering to make purchases. Police were sent to the scene and the representatives of the Hardeon Rent Co. denied interfering with either customers or shop assistants. They stated that they had been sent there to collect the rent due and to stay on the premises until it was paid. Both parties were cautioned re creating a breach of the peace and were referred to the S.S.D. Court.

From enquiries made, it was ascertained that the Silk Co. had entered the premises on 1/4/35. The rental of the shop being \$750.00 per month, payable in advance. The rent was paid up until 1st July and then the Hardeon Agent tried to collect the rent for July, he was told that they were short of money and would pay in a few days time. After the third visit the manager of the Silk Company stated that he was now a member of the Rent Reduction Association and that he had been instructed not to pay any rent until all rents in Shanghai had been reduced by 40%. According to Mr. Yih Fah Kaung, Lawyer, representing the Hardeon Rent Office, numerous visits were made in July, August and September to get the Silk Company to pay the rent. Mr. Yih was asked why they did not take the case to Court and he stated that should they take the matter before the S.S.D. Court, the defendants be certain to appeal and whilst the affair was sub-judice, no rent would be paid and when there was

Mr. Yih was then informed that their action in the matter  
caused crowds to collect in front of the shop and as Hanking

deal of extra work for the Police in keeping pedestrians on

they were compelled to recourse to such action. He further  
asked that in order to show that they were doing nothing  
unlawful, would the police supply two C.P.'s. on payment to go

affair would be reported upon and that a reply would be

Sir,

We beg to forward the following reports made by our members,  
Doong Foh Silk Bureau et al requesting for the Police protection:  
to

"Owing/the speed depression of business, we can hardly  
carry on our business also due to the fact that the  
rent has grown to the maxium especially on Nanking Road.  
Some of the landlord& knew our difficulties and gave  
their tenants a reduction on the rent but Hardoon Rent  
Office insisted on his own way. Besides, Hardoon Rent  
Office adopted an illegal system of collecting the rent,  
which is really offensive. When collecting the rent,  
the Office usually sent a party of about 8 or 10 men  
to his tenant's shop where they freely caused disturbance  
and hindered our business. If the tenants failed to pay  
the rent on behalf of the none-business, the said Office  
should take legal procedure by means of taking civil  
action at Court. It is not fair to demand the payment  
of the rent by force (as above mentioned). As we have  
paid the tax to the S.M.C., of course we <sup>are</sup> entitled to  
receive certain previlage of protection. It is expected  
that the above case will be reported to the Police.  
In case, the similar disturbance committed by the  
said Office, took place, we have to ask Patrol men to  
bring them to the Police Station."

Hoping you will kindly consider this matter,

Sir,

At 9 a.m. 25-7-35, Mr. W. Goulbourn representative of Marcel Darge, Property and Estate Agents, No. 1 The Bund, came to station and requested assistance to remove posters and banners advocating a reduction of rent, which were exhibited in Lane 991 Ward Road which property belongs to above mentioned Firm.

S.I. Myerscough and C.D.S.II accompanied Mr. Goulbourn for the purpose of preventing a breach of the peace.

Inquiries in the vicinity ascertained that the posters were exhibited by an association formed by the tenants of the houses in the same alleyway who are agitating for a reduction of rent.

Mr. Goulbourn removed two of the banners but a crowd formed and objected to the removal and demanded the return of same.

At this juncture S.I. Myerscough intervened as certain members of the crowd were inclined to become boisterous. It was then decided that both parties adjourn to House No. 156 of same alleyway to continue the discussion, however no progress was made regarding the reduction of rent but it was agreed that the posters were to remain until the landlords' visit representatives of the disgruntled tenants to a meeting to discuss this matter.

Collecting Subscriptions in the Settlement.

At 11 a.m. on the 12th October, 1934, one Yang Voong Kwei (楊鳳魁), Proprietor of Yu Shing Cheng (裕興昌) Clothier Shop, 1202 Gordon Road, and one Chang Tuh Shing (張德興), Assistant in the employ of the Yee Shing Cheng (義興昌) Clothier Shop at 1186 Gordon Road, brought to the Footen Road Station two Chinese named Sung Yuh Ling (陸學齡), age 19, native of Shanghai, and one Wong Yung Hsi (王文軒), age 29, native of Shanghai, and complained that the latter two persons had called at their respective shops for the purpose of canvassing subscribers for a paper entitled "Special Publication for Rent Reduction Movement in Shanghai" and of collecting a subscription of ten cents to cover four issues of the publication, claiming at the same time that they were representatives of the "Rent Reduction Committee", which has a branch office at No. 3 Yeung Ching Li, Minkoo Road, Nantao.

In the case of the first complainant, it appears that on calling at his shop they handed him a receipt for ten cents in the name of the "Rent Reduction Committee" and asked him to pay the subscription. This complainant saw by the receipt that the Committee had its

offices in Mantao and he told the representatives that as a resident of the Settlement he could derive no benefit by subscribing and that in his opinion they had no right to collect subscriptions in the Settlement. They argued with him and said that a man of his common-sense, which was far above that of the ignorant rickshaw coolie, should not refuse to pay the subscription and that he had only to read the newspapers to be assured that the Committee had been established for the public weal. This complainant, however, insisted that he had no desire to pay the subscription and the two men then left the shop. He watched them to see where they were going next and he saw them enter the shop in which the second complainant is employed as an assistant, so he decided to go in after them and dissuade the employees there from paying the subscription. Meanwhile they approached the second complainant and upon their request, in the absence of the proprietor, he paid the subscription of ten cents and they gave a receipt. At this moment the 1st complainant came into the shop and drew the 2nd complainant's attention to the fact that the Committee was a Mantao organization, as shown by the address on the receipt, and advised him to take back his subscription as its representatives had no right to collect subscriptions in the Settlement. The 2nd complainant agreed with this view and asked the representatives to return his subscription but they

refused. A dispute then arose and the parties concerned came to the Station.

Both complainant on being further questioned, were emphatic that no threats or pressure were employed by the two representatives and explained that they based their complaint only on the ground that these persons had no right to solicit subscriptions in the Settlement on behalf of an organization in Nantao. Under the circumstances the two men were allowed to go after detectives had verified that they were bonafide representatives of the "Rent Reduction Committee" by a visit to its offices at No. 3 Young Ching Li, Minkuo Road, Nantao. In their possession, however, were receipt books, identification certificates, and a quantity of the first edition of the "Special Publication for Rent Reduction Movement in Shanghai", which were taken from them and will be forwarded to the Special Branch together with a copy of this report. In exchange they were given a receipt and told to take it in due course to the Officer i/c Special Branch at whose discretion the matter seized may be returned to them.

Dear Sir,

For your information I attach a report of an assault on one of the Company's employees when shutting off water.

In view of this I think you will agree that it will be necessary to resume the practice which was adopted by you when we experienced similar trouble in 1932. At that time it was agreed that local police stations should be notified and that Police should be at hand when our employees were shutting off. I should be glad if you would make the necessary arrangements.

Chief Inspector's Report of an Assault on one of  
Company's Employees.

Lane 2181, L-5/137 Yangtszepoo Road.

A request having been received from the Revenue Department to shut off water at the above for unpaid accounts, Inspector Broadley was instructed to carry out the work.

He shut the property off at 9.15 a.m. this morning and in accordance with instructions proceeded to the nearest street hydrant No. 2118, in order to give the tenants an alternative supply.

The hydrant was turned on but before he could get away the Company's van was surrounded by the tenants of the block and both he and his Chinese assistant were stoned and also made the target for discharge of the contents of night soil buckets.

The tenants had also stolen the Company's stopcock, valve and hydrant keys from the van and the attitude of the tenants was such that Broadley was compelled to turn on the water to the block. To do this the tenants returned the stopcock key only.

By this time a Police Van had arrived from the Glen Road Police Station and the necessary keys were recovered by the Police and returned to the Company's Inspector who proceeded to the Police Station and made his report.

The Police informed Broadley that this is a dispute between the landlord and his tenants and it is evident that the landlord has refused to pay his water charges so as to use this Company to bring his tenants to book.

Sir,

Re remarks by D.O. "D" enquiries were made by the undersigned and D.S.I. Liu Wen Chao at the offices of the landlord Lane No. 420 House No. 5 Canton Road.

The following facts were ascertained.

The landlord previously paid the water rates but they did not request the S.W. Works to turn off the water, on 13/9/34 the collector from the S.W. Works Company called at the above office and requested payment for June, July and August's rates, the landlord informed them that the rents for these months had not been collected and that they had no money to pay the rates as they depended on the rents to pay such accounts.

The collector then left and on his reporting to his company they themselves must have issued the order to cut off supplies.

No further news has been received from the S.S.D. Court re the sealing of the premises.

The landlord petitioned the S.S.D. Court to transfer the case to the Criminal Court on the grounds that the tenants obstructed the executing of the Court Orders to seal the houses, they have also instituted P.C.P. against the tenants collectively for assaulting one of their coolies (no report was made at this re the assault) also for forcibly taking him in their motor truck to the Chambers of Commerce. No answer from the Court re the above has been received by the landlord, he stated that when they do receive a reply they will inform this station, on receipt of same a further report will be submitted.

to the above alleyway and the Judicial Police followed a few minutes after the detectives. Explanations by detectives to the tenants proved to be useless and upon the arrival of the Judicial Police, the tenants in the alleyway crowded and shouted "Tang" when they (the Judicial Police) started to seal House No. 53 in the above alleyway. S.I. Fong and the undersigned tried to explain to the tenants there but they refused to listen. A female Chinese tenant named Tsang Shun Sz (張孫氏) age 50 residing at House No. 53 in the alleyway sat down at the doorway and threatened the Judicial Police that at any rate she would not let them execute the sealing orders. The court clerk Yang tried to advise her and explain the circumstances but she refused to listen to him. The Judicial Police were advised by S.I. At this time a crowd of Chinese men and women most of them armed with brooms, etc., arrived in the alleyway and shouted "Tang" and "Piao Po". At this stage S.I. Craik gave instruction for the Judicial Police, the landlords' representatives and the S.M. Police present to retire onto Yangtsepoo Road where the matter could be talked over. On retiring, the crowd shouted and threw mud at the police. On arrival at Yangtsepoo Road, we met Mr. Conduit C.F.P. he spoke to the female Chinese and addressed the crowd advising them to keep quiet and return to their homes and in the meantime he would see the landlord. Sir,

At about 3.30 p.m. 10/9/34, F.S. Ananyin, accompanied by Chinese Judicial Police of the 1st Branch Shanghai Special District Court, visited Kashing Road Station and requested assistance to seal premise Lane 807/27 Dixwell Road, for non-payment of rent.

F.S. Jack accompanied F.S. Ananyin and party to the aforementioned premises and were obstructed by the inmates of the house in question, and other residents of the lane.

S.I. Ware subsequently arrived on the scene and, in view of the refusal of the inmates and sympathisers to quit the premises in order that they be sealed, the Municipal Police and in conjunction with Judicial Police commenced to forcibly eject the occupants of the downstairs main front room. This procedure caused the ire of the occupants and other residents of the lane, which necessitated a call for police reinforcements. On arrival of the reinforcement it was discovered that the residents had to some extent been pacified, and were further addressed by Supt. Aiers, D.D.O. "C", who suggested to them to visit Kashing Road Station, where they could make their complaint.

It was subsequently learned from S.I. Ware that, while the party were ejecting the occupants of the house, a male Chinese, subsequently ascertained to be one named Wo Tee Kyung (胡德生), aged 36 years, native of Ningpo, residing at 807/27 Dixwell Road, threw an ordure bucket at the police party, causing the contents of the bucket to splash over S.I. Ware and F.S. Jack, whereupon the aforementioned person was taken into custody and was charged with interference with the lawful discharge of public functions.

On arraignment before the S.S.D. Court in the forenoon of the 11/9/34 the arrested man was remanded in custody until 13/9/34 a.m.

Acting on the advice imparted by Supt. Aiers, as previously mentioned, about 20 women residents of the lane subsequently visited Kashing Road Station.

These persons were questioned and the appended particulars ascertained.

About nine months ago the residents of the lane, which is an estate of 56 houses, inaugurated a rent reduction movement and refused to make payment of rent until the landlord had reduced the present rental of \$36.80 per month. The monetary reduction required by the tenants not being stipulated.

At the time this rent reduction movement was inaugurated the rentals were being collected by Wong Young Woe (王永和), accountant of the Young Chong Shing (榮昌) Coal Co., 806 Dixwell Road, on behalf of the proprietor of the coal Company, one named Yih Tsung Kyiu (葉尊九), who resides in Soochow, and who is the owner of the estate.

Continually overtures made to tenants for the payment met with refusal, all stating that the money was being paid into their respective banks pending the reduction of the rent of the houses.

In view of the inability of the landlord to collect rentals the estate was placed in the hands of Messrs Brandt Rogers, Ltd., 391 Kiangze Road, who are now acting as the agents of the property.

The tenants still refuse to make payment of the rent until such times that the landlord makes a reduction.

In respect to the premises ordered to be sealed by the S.S.D. Court, it was learned that the tenants took over occupancy of the premises in May 1934, making a deposit of three months rent.

During the ensuing three months no rent was paid by the tenant, he being under the impression that having deposited three months rent he had no need to pay any rent until the expiry of the three months.

### RECORD OF INVESTIGATION.

At 12:45 p.m. 28-7-34 D.I. Grubb attached to Headquarters brought to Central Station a letter written in Chinese, and which was thought to contain threats and he instructed the undersigned to make enquiries into the matter.

A translation of the letter is as follows:—

Envelope addressed to Mr. Zang Yue Chee, Chinese manager, Republic Land Investment Co. 149 Yuen Ming Yuen Road.

#### Contents of letter.

Dear Manager Yue Chee,

We have long heard of your name but never had the opportunity to meet you but since we have moved into your company's houses in the Eastern District we begin to learn your personality. It is out of our question whether you are a good man or not as the proverb says "Mischievous and fortune are brought to one, by oneself" and we wonder why you are willing to be a "running dog" of the capitalist without taking into consideration the welfare of the people. You have treated the tenants of these terraces with high handed oppression as well as continuing to seal our properties. We have suffered thereby very deeply and clearly recognize your personality and action for which we will seek means to repay. Now you are a round faced rich man and must have a lot

At 5 p.m. 28-7-34 Mr. Yue Chee was interviewed at his home 1024 Avenue Road and when asked why he should receive such a letter he stated that the tenants in the Eastern District had failed to pay their rents and a Restraint Order had been placed on their furniture by the Court until such times as they pay their rent.

Mr. Yue Chee stated that there is nothing in the letter to worry over he only informed the police in case the tenants came from the Eastern District and settled outside his premises. As this gentleman resides in the Bubbling Well district, Bubbling Well Station was informed of the affair and the patrolmen warned to keep a sharp look out for <sup>any</sup> signs of trouble.

Mr. Yue Chee was also advised to phone Bubbling Well Station if necessary.

**LETTER FROM RENT REDUCTION COMMITTEE TO RESIDENT OF  
No. 11, KONG NYING LI, MACAO ROAD.**

At 12.30 p.m 9/6/34 C.D.C 289 brought to the station a letter received by one named Soong Foong (兆芳) resident of No. 11, Kong Nying Li, Macao Road, from the Rent Reduction Association. Translation as follows:-  
"Mr. Soong Foong,

Last year, when the landlord of the Kong Nying Li alleyway intended to increase the water money, you, tenant of No. 11 of said alleyway, led all the other tenants to protest. The water money was actually increased on all the tenants except you. It is believed that you privately negotiated with the landlord and therefore obtained special benefit. Now the Rent Reduction Movement is in progress it has been decided that the rent since January 1934 shall not be paid to the landlord, but we have learned that you are going to pay your rent next Monday. We beg to warn you not to do so, otherwise we shall take most serious action against you.

From Rent Reduction Association.  
Investigation Committee.

The recipient of above letter was questioned and stated that although he took part in the protest mentioned in the letter, he was not the leader. He paid the same amount of water money as the rest of the residents. The original of the above translation is attached, and it is respectfully suggested that it be

Remarks

(Any outstanding or peculiar feature to be commented on by investigating officer).

At 6.30 p.m. 1/6/34 complainant came to the station and reported that he had received two letters signed "City Rent Reduction Committee Association, Investigation Groupe.", in which he was told a bomb would be thrown into his shop.

Enquiries by C.D.C. 289 and the undersigned elicited that at 1 p.m. 28/5/34 he received a letter signed, but not "chopped", by the above committee to the effect that he had already paid his rent which was breach of the association's regulations, and that a parcel of excrement would be sent to him. It also said that if he defaulted again a bomb would be thrown into his shop. It finished up by telling him to organize a branch of the rent reduction association.

During the night of 30/5/34 his door was smeared with excrement and at 1 p.m. 1/6/34 he received another letter. This time he was warned that if he did not have a branch of the organization running by 3/6/34 they would throw the bomb on that day.

The envelopes were taken to the Carter Road sub-post office and an official there stated that though the post mark was very indistinct, he thought that the letters had been posted on Soochow Road (South side) between Thibet Road and the Garden Bridge.

The necessary precautions will be taken on 3/6/34 meanwhile enquiries are being continued.

The "Rent Reduction" movement is now progressing in all the city. It was arranged that from January the rent payments should be reduced. We hear that you have already paid the February rent in obvious breach of the regulations. Last night we sent a parcel of spicy yellow gold powder (excrement) as a present. If you pay rent again, before rent reduction is effective we will send you a bomb. After receiving this letter, make haste to organize a rent reduction branch, and be responsible to manage it.

We hope you received our first letter, but the branch organization is not yet arranged. Last night we sent somebody to your shop and smeared the yellow powder (excrement) on your window. We should have put it in your mouth, but as you are a good merchant we gave you some "face". We now give you three days limit in which to organize the rent reduction branch committee. If you have still failed we will do the fiercer action mentioned in our first letter, and fear it will then be too late to regret.

On 5/6/34 the Court clerk Yang Yao Ming was ordered on the authority of the President's instruction No. 4277 to proceed to above houses and have the property of the tenants attached. In every house before the officers placed seals on the property, Sih Kwei Sau (孫桂水) a representative of the landlord questioned the tenants whether they were going to pay due rent. Then the three above named tenants interfered and commenced to intimidate the others to restrain from paying rent till an agreement is reached with the landlord. This developed into lengthy and violent altercation, which prevented the officers from proceeding with their work.

The facts were brought to the notice of D.O."C", who warned the tenants against obstructing the Court officers.

The three men were released and warned that they were likely to be summoned for obstructing the S.S.D. Court officials in the execution of their duties.

At 2 p.m. 5/6/34, the S.S.D. Court officials resumed their work with the assistance of Insp. Wen Yu Heng, without any hinderance.

Shanghai, May 28th 1934.

To the Superintendent,  
West Hongkew Police Station.

Dear Sir:-

We, the tenants of Ning Kong Lee off North Chongming Road, beg to respectfully inform you that on account of demand of an increase of 40 per cent monthly house rent, a legal proceeding has been taken place by the landowner Lee Dah-fu against the tenants at the end of 1930 and after having been made with a counter appeal to the Higher District Court, an order was issued by the said court on the 26th. January 1931 ordering to make an increase of 15 % instead of 40 %. Owing to the War broke out at Shan hai on the 28th January 1931, it was impossible for the tenants to deal with this matter within the fixed period of 20 days and most of them living at Ning Kong Lee have moved away. Both the landowner as well as Woo Tse-ping, his lawyer, have never mentioned anything again in regard to this matter until on the 20th. April 1934 while a Court Order was suddenly received ordering 32 tenants at Ning Kong Lee to make repayment of over 3 years' increase with the amount of \$179.40 up to \$750.00. The reason why we can't fulfil the order is that firstly the situation at present has greatly changed since the 28th. Jan. 1931, as we really have suffered so heavily during the War when both the iron gates at the corner have been closed for about 4 months; secondly most of the tenants are now NOT the original ones living at Ning Kong Lee before the War and are absolutely without any knowledge of the court case; thirdly it is rather unreasonable for the landowner to demand for such an increase of house rent just at the time when the local market is really so bad at everywhere and yet some reduction of house rent have already begun at different places such as at Nantao, Chapei and also in the Settlements. Besides that the house rent of Ning Kong Lee is comparatively higher than that in the neighbourhood as this has already been ascertained in a reply received from the Major of Greater Shanghai who has sent the Chairman of the Commission of House Rent Affairs to make a thorough investigation into this matter. Under these circumstances we have been lodging a strong protest against the Landowner's demand at the Court for execution of the Order and in the meantime we must ask you to kindly send a warning to the said landowner, who is represented by his lawyer Woo Tse-ping at No. 3 Thibet Road, Lane 340, not to press the tenants too hard and say "in case any trouble or disturbance will be arisen upon the landowner's so doing, he will take the entire responsibility."

Yours faithfully,

Information will be furnished.

China Times (Editorial):

THE COMMENCEMENT OF ANGLIC-JAPANESE TRADE WAR

By the use of force, Japan has destroyed the peace in the Far East, and China as a consequence has suffered. By enforcing a policy of dumping, Japan has disturbed the world market, and Britain has been deprived of all her former exclusive markets. Japan is realizing her ambition by political and financial means. No wonder she is held in contempt by the countries of the world. However, no country is bold enough to punish her for her political encroachment. Her encroachment by financial means has caused reactions. India is the first Dominion of Britain to react to the Japanese financial invasion. Agitation for measures to deal with the Japanese competition is particularly manifest among textile traders of Lancashire. As a last resort, Mr. Runcimen, President of the British Board of Trade, made an announcement of a protective policy.

Some one says that although Japan could not be punished with political sanction, she would be dealt with financially by Britain in cooperation with America and that we can rejoice in the possibility of Japan being thus endangered and our country being relieved.

From the announcement made by Mr. Runcimen, we deduce the following three conclusions:-

In the first place, the announcement was made to pacify his country men, because if it is intended as the beginning of a conflict, why has not the British Government abrogated the Anglo-Japanese Treaty of Commerce?

In the second place, the deadlock in the negotiations between Britain and Japan occurred when Britain insisted upon the negotiations covering the whole world while Japan maintained that the parley should be confined only to the British colonies and Dominions. Should the announcement be intended to break up the relations between Britain and Japan, the latter can dump all her surplus goods on the markets outside the British colonies and Dominions.

RENT REDUCTION COMMITTEE'S LETTERS TO COURTS

On behalf of the tenants of the houses on Chang Ka Zah (張家宅), Dah Chi Road (大西路), the local Rent Reduction Committee yesterday sent the following two letters to the Special District Court and the Nantao District Court:-

(1) To the Special District Court:-

"Our Committee has received a letter from the Chang Ka Zah Branch stating that one of the members of the branch has been ordered by the Court to pay all rentals deposited in banks to the landlords. This Committee also received letters from the Shun Chen Li Branch, Yangtzepoo, stating that several of their members have been oppressed by the landlords.

The tenants in question have had their houses sealed by the Court and their property detained.

"During the present trade depression, high rentals should be reduced. If the Courts assist the landlords, a critical situation will arise, and the prosperity of the district will be affected. We request you to consider the matter."

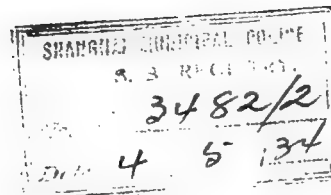

(2) To the Nantao District Court:-

"Our Committee has received a letter from the San Tuo Li (三多里) Branch, Dah Chi Road, stating that the landlords of the terrace are pressing for the payment of rentals. We have also received a letter from the Tung Jen Fang (同仁坊) Branch, West Gate, stating that the landlords of the terrace have requested your Court to instruct two of the tenants to pay the increased rentals. As the oppression of the landlords is intolerable, we have to request your Court to protect the tenants."

DISCONNECTION OF WATER SUPPLY

Following the disconnection of water supply to the Bei Teh Li Alleyway (北德理) off Tatung Road, negotiations were conducted by the tenants with the landlord and the Shanghai Waterworks Company, but proved unsuccessful.

Yesterday Lawyer Wong Yee Koh (王毅高), representing the tenants received a reply from the Shanghai Waterworks Company. In addition to despatching a letter refuting the statements made by the Shanghai Waterworks Company the lawyer accompanied by several representatives of the tenants called at the company. They were received by the sub-manager, Mr. Walter. The lawyer told him that the tenants would pay the water charges and requested the company to connect the water supply. The sub-manager, however, refused to accept the payment unless the tenants agreed to the installation of water meters.

The conference lasted several hours, but no agreement was reached and both sides remained obdurate.

Before the delegates of the tenants left the Company, they warned the latter that unless the Company complied with the request for the re-connection of the water supply, in accordance with the agreement concluded with the Shanghai Municipal Council, the Company should be held responsible for any incident resulting from the disconnection.

The following is the gist of the reply from the Shanghai Waterworks Company to Lawyer Wong Yee Koh: "In reply to your letter of the 27th regarding the water supply to the houses in Sinza and Tatung Roads, we have to inform you that the owner of the houses has already signed a contract with us for the installation of water meters.

"The articles quoted by you have nothing to do with the case, because after the landlord has accepted the terms and conditions of the Company, the payment of water charges is no concern of his.

"Under the circumstances, we had to disconnect the water supply. Please ask your clients to call on us to discuss the matter."

Yesterday the Chief of the Press Information Office of the S.M.C. sent a letter to newspaper offices stating that the report published in yesterday's issue concerning an interview between Lawyer Wong Yee Koh and Mr. Jones, Secretary of the S.M.C., was inaccurate. Mr. Jones did not side with the Waterworks Company neither did he refuse to consider the request of the representative. The letter added that Lawyer Wong did not interview Mr. Jones.

RENT REDUCTION MOVEMENT.

Between 5.15 p.m. and 6.15 p.m. 2-5-34, another meeting was held at No.58 Hong Zou Fong alleyway off Hapai Road by the "Hong Zou Fong Sub-committee of the Rent Reduction Movement Association". About 40 persons were present with one named Sze Sou Ying (張瘦影) presiding. Enquiries ascertained that the house tenants of the said alleyway, owing to the fact that several houses had been sealed by the S.S.D. Court due to the non-payment of house rent to the land-lord, became distrustful of the said Sub-committee, therefore the president of the afore-mentioned Sub-committee called this meeting and invited a member from the Rent Reduction Movement Association, North Honan Road, named Tseu Foo Chang (傅輔璋) to attend. At the conclusion of the meeting, the following decision was passed:-

(1). That whoever wishes the house rent to be reduced, should have his name signed on a paper to the effect;

(2). That all the over-due house rent are to be paid to the land-lord before this decision is made, and the house rent since then will be deposited in the Bank. (This was decided before but was not carried out).

DISCONNECTION OF WATER SUPPLY TO BEI TEH LI ALLEYWAY.

With reference to the disconnection of water supply to the Bei Teh Li ( 培德里 ) alleyway, off Sinza Road, by the Shanghai Waterworks Company at the request of the Catholic Mission, the owners, the tenants of the alleyway called a meeting at which it was resolved to lodge a protest with the Catholic Mission concerned. Up to yesterday evening, the water supply was still disconnected.

Near the Bei Teh Li alleyway stands the Bei Teh Girls School and owing to the inconveniences incurred from the disconnection of water supply, the School has suspended studies for two days.

At a meeting held at 8 p.m. yesterday at the premises of the Min Shou ( 民族 ) School, about 600 persons were present, including representatives of various public bodies.

Lawyer Wong Yien-kwoh ( 王咸陂 ), representing the tenants of the Bei Teh Li alleyway, yesterday despatched the following letter to the Chinese Ratepayers Association and various other public bodies:-

"According to tenants of the Bei Teh Li alleyway, off Sinza Road, the water supply has been provided for many years by the Catholic Mission, the owners of the property. Owing to high water rates in 1930, the tenants agreed to an increase of \$1. The owners have attempted to increase the water charges by \$5, but the tenants object.

"Without warning the tenants, the owners at 9 a.m. April 24 requested the Shanghai Waterworks Company to disconnect the water supply to the Bei Teh Li alleyway.

"Upon enquiries at Sinza Station, the tenants were informed that the disconnection was due to the non-payment of house rentals, while at the Shanghai Waterworks Company, they were told that this action was carried out on the instructions of the owners.

"According to the agreement between the S.M.C. and the Shanghai Waterworks Company on March 17, 1928, either the landlord or the Shanghai Waterworks Company is allowed to disconnect the water supply to houses.

"The water supply concerns the life of the people and we hereby ask your Association to despatch a letter to the S.M.C. requesting that the Shanghai Waterworks Company be instructed to connect the water supply at once."

RENT REDUCTION MOVEMENT.

Due to trade depression, local residents have requested landlords to reduce the rentals. The movement to reduce the rentals has not met with much success, but cases wherein landlords have forced the tenants to vacate their premises or increased the rentals have frequently occurred. We are surprised that the municipal authorities have not assisted the public.

The landlords of Bei Teh Li (北德理), Tatung Road, reported to be Catholics, have increased the water charges. The tenants oppose the increase and the water supply is now disconnected. This action has been sponsored by the Catholics who preach "righteousness" and "love." The lives of the tenants will be in danger if fire breaks out on the premises.

The landlords should at once restore the water supply to the tenants.

A ROUGH TRANSLATION OF THE PETITION MADE BY THE  
HONG ZEU FONG SUB-COMMITTEE OF THE RENT R.M.A.

The petitioners beg to bring to your notice the following oppression adopted by the landlord, Phen Nyi Tai, of the Hong Zeu alleyway off Ferry Road & Robison Road:-

The houses situated at the above address and the property of Phen Nyi Tai, a well-known rice merchant, and are under the management of the Probst, Hanbury (China) Ltd., Jinkee Road. Owing to the comparatively high rate of rent imposed upon the tenants, the latter therefore organized a "Rent-Reduction Sub-committee" in order to request the land-lord to make a reduction of the house rent. As a result of the financial embarrassment faced by all the tenants, naturally some of them had to owe some three months' rent to the land-lord, and as a consequence of which, the latter, despite of the public opinion, had through the Court detained the and sealed the properties, which is a very cruel act. When the tenants rent the house, they furnished a guarantee paper which guaranteed the tenants' financial possibilities. Now the land-lord instead of acting through the proper channel, that is to ask for the rent from the respective guarantor, had adopted such a bitter measure. The land-lord was undoubtedly naturalized by those imperialists and had therefore adopted the imperialistic action. We hereby respectfully beg to request you, for the spirit of the late Dr. Sun's "Three People's" doctrine, to prevent the landlord from pressing the tenants any further. The petition is herewith presented to you by our representatives Yih Yuen Foong, Sze Sou Ying, Koo Kou Hsian & etc.

REPORT

Subject (in full) Rent Trouble at Se Wo Li, East Seward Road.

Made by \_\_\_\_\_ and \_\_\_\_\_ Forwarded by Detective Inspector Wardrop.

Sir,

At 11.30a.m. 20-3-34, a party of Judicial Police and 1st. S.S.D. Court officials visited the Se Wo Li, East Seward Road, and proceeded to seal up the furniture and household effects of the tenants. Police were informed and attended to prevent any disturbance.

It appears that the tenants of forty houses about seven months ago commenced to agitate for a reduction of rent, and since then have deposited the rent in the bank instead of paying the landlords who are the Republic Land Investment Company, No. 21 Yuen Ming Yuen Road. The landlords took action in the 1st. S.S.D. Court for recovery of the rent, and recently obtained judgment for three months rental.

In consequence of above judgment, an order was issued by the Court attaching the household effects of the defaulting tenants and restraining them from moving same until the rent was paid. As a result of the Judicial Police carrying out the above order in house Nos. 4, 6, 10, 13, 25, 40, 42 and 46, the tenants of 3, 7, 9 12, 14, 17, 22, 24, 32 and 44 paid up the rent outstanding by them to the landlords representative who was present.

Judicial Police and Court representatives will again visit the above alleyway on the morning of 21-3-34, to execute the order on the remaining houses. The tenants representative and leading actor in the agitation is a Chinese lawyer named Wong Chih S (王吉士) who has an office at No. 3 Se Wo Li, East Seward Road.

5. That with the exception of the districts mentioned in (1) and (4), charges for electricity and water etc. for the period during which rent is remitted be paid by the tenants and that the sub-tenants should also pay at rates to the 1st tenants proportionately.
6. That the 1st tenants and the sub-tenants be entitled to equal remission and/or reduction in rent.
7. That during the period of rent remission and reduction, neither the estate owner nor the 1st tenants should ask their sub-tenants to remove or increase the rental.

### RECORD OF INVESTIGATION.

At 9.30.a.m. on the 3-7-32 the Compt accompanied by Mr. Shroff Yang Kai Shou of W-44 Kyung, Joo Lee, Avenue Road, came to the Station with reference to this case.

Yang Kai Shou was interrogated by the undersigned and C.C. 185 and he corroborated the Compt's version of the affair, and in addition stated that a slight altercation occurred between the Compt and Liu Ng Tsang at the time the latter was acting as interpreter. The cause being a difference of opinion over the payment of rent for the months during which the Sino-Japanese hostilities were in progress.

Moreover, since the Shroff can speak fluent English, there appears no reason for the services of Liu Ng Tsang being required.

The Compt still expressed his desire to charge the two accused persons inasmuch that he intends to take Court proceedings for an ejection order, and a conviction for assault against the two defendants would be favourable for his case.

C.C. 181 who resides at Pak Ka Dou has been instructed to endeavour to effect the arrest of the two accused.

## Nanking Acts On Rental Disputes

### Investment Returns To Be 12 Per Cent And Mediation Provided

Seeking to minimize friction between landlords and tenants, the Executive Yuan in Nanking has promulgated a set of regulations requiring local governments to set up a standard for rentals, restricting the returns from realty investments to 12 per cent annually, and ordering that all rent disputes be heard by a mediation committee before the cases are sent to law courts.

The regulations, to be effective as soon as rules for enforcement are approved by the Government, are expected to bring far-reaching effects to both landlords and tenants. They contain 17 articles.

Highlights of the regulations are:

#### Courts Not First Recourse

No rental dispute should be sent to law courts until efforts of the mediation committee according to these regulations fail.

The local governments, considering the local conditions, shall fix a standard for rents and submit the same to the superior for approval. Any revision of the standard because of change in social economical conditions should also be submitted for approval. The standard should be so fixed that returns should not be more than 12 per cent annually from the investments on the land and construction cost.

In the event of disputes over rents, the mediation committee should be called within seven days after the filing of application.

#### Make-Up Of Committee

The mediation committee is to be formed by a representative from the local government, a representative from the local Kuomintang, a representative from local court and a representative from each of the parties.

In the event that mediation results in an agreement, the agreement should be written down and filed with the local government. When the mediation fails, the case is to be referred to the law court. The mediation committee is to forward the records of the case and to be informed of the decision given by the court.

#### Fine Provided

In the event one of the parties fails to carry out terms of the agreement, he will be fined a sum double the monthly rent. If the conflicting parties fail to ask mediation and directly file their cases before the law courts, the latter may proceed with the case after fining the parties a sum representing one month of rent.

The mediation committee is to collect no charges for its service.

All rent cases, still pending in court or outside the court, are to be dealt with under these regulations.

## HOUSE RENT DISPUTE REGULATIONS

A Set of Important Articles  
Adopted by Yuan

### MEDIATION BEFORE CASE GOES TO COURT

A series of important regulations for the settlement of house rent disputes without bringing the matter to law courts were adopted by the Executive Yuan at a meeting on February 18. The main articles of the regulations are:

That, unless mediation fails after applying the following regulations, the matter shall not be brought to a law court.

That a standard house rent shall be fixed by the local government authorities according to local conditions. The highest standard house rent shall not be more than twelve per cent. of the yearly premium derived from the total value of land and buildings thereon.

That, when a dispute arises, at the request of either party, the local government authorities shall convene meetings of the mediation committee to bring about a settlement of the dispute within one week.

That the mediation committee shall be composed of representatives from the local government office, local Kuomintang office, local district court, and parties to the dispute.

That parties to the dispute shall nominate their delegates within one week after receiving a notice.

That during the period of mediation, the landlords shall not force their tenants to vacate the premises occupied by them.

That, when mediation is brought to a successful conclusion, a written statement shall be made out, signed by the parties to the dispute, and reported to the government office.

That this written statement shall be regarded as a contract between the parties to the dispute.

That, when mediation fails, due to the disagreement of either one party or both parties, and the dispute has been referred to a law court, all documents connected with the unsuccessful mediation shall be sent to the court concerned.

That, after a dispute has been settled through mediation, either party which has failed to observe, or carry out, the agreement entered into in this regard, is liable to a fine amounting to twice as much as the monthly rent for which dispute they have come for mediation. Landlords who force tenants to vacate premises during the period of mediation are liable to a similar fine. The local government office will ask the law court to execute the decision.

That no charges shall be made for the mediation of house rent disputes.

That house rent disputes, which have not been settled when the regulations are promulgated, shall be settled according to the provisions of the regulations.

**MEASURES FOR REDUCTION  
OF RENT**

That the National Government be requested to fix the rate of interest on investments in immovable property at not more than five per cent. and to re-assess the value of land was decided upon by members of the Rent Reduction Committee at a meeting held in the Chinese Chamber of Commerce building, North Soochow Road, on Sunday afternoon. Among other decisions reached were that the Executive Yuan be petitioned to make an early promulgation of measures for a reduction in rent, that the National Government be requested to issue an order that taxes be collected also on vacant houses, and that members of various branch offices be notified not to conclude any new leases with landlords even if they are pressed to do so. Tenants of houses belonging to Liza Haroon Co. also discussed the question for a rent reduction in the Chinese Chamber of Commerce building yesterday.

### REDUCING RENTS

The general tendency of rents in Shanghai to fall has been apparent for some time. Advertisements in this journal have been eloquent on the subject. Landlords have sensed the difficulty of the situation and, in consequence, have voluntarily offered rent reductions. No landlord claims to be possessed of an extra white pair of wings on that account; still the fact deserves record, if only because some landlords have not followed suit. There are, however, people, who consider the moment opportune to apply what might be called a method of artificial perspiration to the brows of the landlords—generous and stingy alike. In a certain property in Shanghai the rents were reduced not long ago to the extent of about 21 per cent. by the spontaneous action of the landlords. The tenants seemed to be pleased. This contentment was disturbed by receipt of a circular from an outside philanthropist who expressed a fervent belief in the value of what he called "a united protest" as a means of securing further favours from the landlords. His calculations were not based on sound reasoning for they included the statement that "house-owners are not inclined to allow any reduction, as long as they are not requested or forced by their tenants". The particular tenants whom he thus addressed had had practical proof of the falsity of that statement, but some of them, on the principle of trying everything once, lent an ear to his suggestions. In the desperate search for unity the public-spirited "organizer" offered to draw up a petition for signature by all tenants. He ingeniously proceeded:

As it is rather difficult to unite all the tenants of these flats, I undertake to make out such a petition, signed by all the tenants, to hand this petition over to the houseowners, and in general to do everything to obtain the desired reduction.

For this arduous labour a small sum was demanded in advance for "expenses", and the balance—ten times that sum—was to come when "a successful reply" had been received. It is to be feared that this attempt to create another flourishing industry will not prove remunerative. Most tenants realize the benefit of keeping in direct touch with their landlords without the interference of outsiders. The incident shows the necessity for detecting the spurious from the real in handling the rent problem. Landowners and houseowners comprise gentry who may be slow to respond to the economic requirements of the moment, in a time of changing values, but taken as a whole they cannot afford to be neglectful of those considerations. In any event, for the sake of encouraging a quasi-benevolent third party to exercise his talent for the manufacture of "round robins", no tenant in his senses is going to antagonize a landlord who has voluntarily reduced rents by 21 per cent.

Committee Formed by Nth.  
Szechuen Rd. Residents

Japanese joined Chinese tenants agitating for a reduction in rent for the first time on Monday night when two Japanese residents of Fengluo Terrace on North Szechuen Road were elected to a committee appointed to negotiate with the landlord. Three Chinese were also chosen as spokesmen.

The election took place at the "Lanfeng" restaurant in the same terrace on Monday night. This followed the distribution of handbills urging all dwellers in the property to gather for a meeting, which was sponsored by Chinese.

A resolution adopted at the gathering urged a 30 per cent. reduction of the \$31 rental now being charged, according to the "Shanghai Mainichi."

Mr. Tsutomu Takahashi, residing at No. 57 Fengluo Terrace, was chosen one of the two Japanese representatives. He is now out of town and is expected to return at the end of January, according to the daily.

### HARDOON SUES FOO LOO ZOO

#### Nanking Road Shop Owes Ten Months' Rent

The Foo Loo Zoo Restaurant, popular Chinese restaurant at 691 Nanking Road, was sued by its landlord, Messrs. S. A. Haroon Co., in the First Special Court yesterday afternoon for the recovery of over \$9,000, the total amount of ten months' house rent due to the plaintiffs.

The defendant shop asked for a rent reduction for one-third, namely, that its monthly rent be reduced from over \$900 to a little over \$600, the reasons given by them being that business was bad and other landlords had given similar reductions to their tenants.

The plaintiff declared that the fact that other landlords had given rent reductions to their tenants could not prove that the value of land had depreciated and that the fact that the defendant had paid several months' rent at the original rate after their lease contract had expired showed that they were willing to occupy their premises at the original rent rate.

Judgment was reserved till Saturday.

# Sensational Rent Reduction Ruling In Shanghai

Will Highest Tribunal Sustain Judgment Of Court?  
—Creation Of A Board Urged For Settling  
Landlord-Tenant Disputes

By ARTHUR AND T

Recently, the Special District Court handed down a ruling that granted to the tenant-plaintiffs a 20 per cent. reduction in their rentals, retroactive to January 1 of this year. Irrespective as to whether this judgment will be sustained by the highest tribunal, the considerations involved are of immense interest. No doubt, the legal aspect will be the subject of much professional wrangling, but what of socio-economic guidance in this matter?

From the point of view of the owner, holder, or investor for the Court's judgment is alarming and appears inequitable. How is it in the competency of the judiciary to interfere with price-fixing, which is automatically governed by supply and demand, is queried. Why should lessors submit to arbitrary ruling? And did the Court in issuing this judgment, reckon:

1.—That tenants may be taking unfair advantage of their landlords by organizing collective demands for reduced rentals when the rates charged may be moderate and not at all productive of a good return to investors;

2.—That the Court is unduly interfering with private rights;

3.—By its authoritative action, it weakens the lessor's fiscal position, which sets up a chain of effects leading to disastrous issue;

4.—That the decision is rather of an unprecedented nature, which, even if unsustained finally, could cause, in the interim, serious consequences to the general body of land-holders dependent upon banks and financiers who would be disconcerted by the administrative intrusion and its implications;

5.—That the landlords suffer the risk of vacancy and are unable to obtain relief from the State;

6.—That owing to adverse conditions obtaining in real estate, landlords are not in an advantageous position—it is a tenant's market—and the latter could seek premises suitable to their ideas of rental, the Court action thus adding momentum to an already descending movement, which, apart from appearing inequitable, is aggravating.

7.—That as no two pieces of property can be identical, the measure of warranted rental differs and the question whether a certain landlord is over-rating his premises or not depends on his individual case; a general ruling is not suitable, as its application would be more than fair in some cases and improper in others.

The above points are sufficient for practical purposes but are not exhaustive of the owner's case.

## The Tenant's Angle

Taking up the tenant's angle, we have:

1.—That there is a great disproportion in his budget of rent to earnings—he feels that the product of his work goes mainly to landlords;

2.—During times of prosperity he pays increased rentals and why should this fixity outlive general declining conditions:

3.—Whilst there has been wide-spread fall in rentals, shifting his locale to lower-priced premises would not compensate for the loss he would incur by the transfer—it is not only a matter of initial removal expenditure to him but, as in the case of a professional or retail business, there would be a setback in the clientele built up and accustomed to frequent a certain locality; illustrative of this angle, we have the Wing On and Sincere Companies emporium developments that not only served the existing large population in the neighbourhood but by reason of this presence drew to themselves a large customer trade, which, in turn, added considerably to the density of the district—their industry built up the neighbourhood almost as much as the environment developed them;

4.—That the tenant in the majority has small means which puts him at a disadvantage towards the landlord;

5.—The occupant, in the course of his tenancy, quite often prevents dilapidation of the property leased by him, even enhances its value through improvements put in at his own expense, and as fixtures revert to the owners if not otherwise stipulated, a removal to other quarters may entail considerable loss;

6.—Premises constitute a first necessity, and therefore, if exploited, would exert inordinate hardship—it should, he thinks, be regulated by the authorities;

7.—Landlords in general, it is averred, are taking advantage of the enhanced value of Settlement and Concession areas, which, but for special protection and extrality privileges, would level down to that of the enveloping districts.

There are several other points which may be brought up but let us be content with an equal number for either party.

## Socio-Economic Principles

It is not difficult for legal wits to advance arguments ad lib on contending sides, but what we are here concerned with is the reception and treatment to be given by the authorities to this matter. It is true that whilst another case in court met with a decision which was against tenants who pleaded rent reduction on the ground of the prevailing depression, yet the ferment on the question of rent reduction will not subside and the subject would have to be very seriously taken in hand by the State. The problem has hardly any precedent and, therefore, the authorities, in finally shaping out

a "deal," would be greatly assisted by creating a "reference frame" or seeking guidance from fundamental socio-economic principles.

A cursory inspection of "backgrounds" shows that, in equity, the primary consideration is the axiomatic dictum of the greatest good of the greatest number. As a corollary, individual life must be subordinated, or rather made to harmonize with, collective existence. The civilized governments of the world have recognized that first necessities have to be made subject to regulation by the State. In the field of utilities, for instance, a municipal franchise contains restrictions upon profits and rates—profiteering tendencies are suppressed through articles and by-

## Monopolistic Factor

Applying these broad considerations to real estate—especially urban—it cannot be denied that land, being limited, tends to become monopolistic, as, at any one time, all the existing terrain is being owned by a group, and it is irrespective whether such group is made up of a few powerful magnates or by a great number of small holders. The point is that the condition for a monopoly exists. These ideas are not new and as far back as two centuries ago "the single tax" on the rent of land was debated by the famous group of French economists, known as the Physiocrats. The arguments of this school of thought were popularized, a hundred years later, first in America and then abroad, by the eminent American writer on economics, Henry Georges, whose unselfish devotion to economic and social questions attracted enormous popular feeling and respect. The basis of his doctrine was that the private ownership of land, like that of air and sunlight, is inequitable. Whilst the tax proposition which emerged was rejected by economists, a consensus of opinion recognizes that there should be measures aiming at the gradual state appropriation of future unearned increment of land, that is to say, the benefit in rising values created by the existence of a community should redound to the commonweal. In 1913 Lloyd George, then British Chancellor of the Exchequer, put forward a Land Reform Scheme that harmonized with modern aims, which tend to reduce the power of land monopoly. He proposed bringing the subject of its control and use under a Ministry of Lands. The incidence of the Great War prevented the development.

This should serve to indicate the modern world trend and attitude, especially towards land in cities, where continuous appreciation of values is due to communal usages and not to any merits of the possessors, who are responsible only for improvement which, of course, will be exempt from taxation.

## A Nucleus For Reform

As far as Shanghai is concerned, these views are rather extreme, and it is not suggested that any attempt be made to introduce the application of reforms as conceived by the most advanced minds, which reforms have not yet been universally adopted. However, they would serve as a basis for the adoption of an attitude which would look with favour on the introduction of measures that could alleviate the genuine hardship experienced by the vast body of renters in general who find that in Shanghai the item of rental is out of all proportion to their total overhead.

The Chinese Government should take particular care to investigate the creation of a Board to whom all disputes between landlords and tenants, as regards rentals, can be referred. The Board should be constituted of duly-appointed representatives of land-owners, tenants, and delegates of the Government. Such personnel would be in a much better position to handle individual cases than a Court of Law.

As the Government is about to create a Mortgage Bank and to relieve the situation by amending the auction law, it would be appropriate, concomitantly, to form a body or chamber to enforce reasonableness and fairness in matters of rates of rental.

Without effecting a radical reform, the Chinese Government could thus exert measures in keeping with the inevitable future trend.

# TENANTS' ACTION FOR RENT REDUCTION

**No Evidence to Show Estate Has Depreciated:  
Area Not Affected by Order**

The full text of the judgment in the rent reduction action brought by Canton Road shop proprietors against Tsung Teh Rental Agency, air landlords, is now available. The action was recently dismissed by the Special District Court's Civil Division and a report has appeared in the "North-China Daily News." Mr. Yao Wen-chi, attorney-at-law, represented the tenants, while Dr. L. Yang was the lawyer for the landlords. A translation of the judgment follows.

## Judgment

"The plaintiffs by their attorney asked for judgment that (1) the plaintiffs be exempted from paying 70 months' rent on account of the hostilities of January, 1932, amounting to \$2,756.64 (2) the plaintiffs be permitted to reduce the rent to an amount equal to 60 per cent of the present rate of rent from July 1, this year, that is, the rent should be reduced each month by the amount of \$1,328. (3) the defendants to pay costs.

"The plaintiffs allege that Wu Chia-chu is now occupying the premises at 448 Canton Road and operating the Fu Hsin Lih Shoe Store at a monthly rental of \$339.80; the plaintiff Nien Tsun-yung is occupying premises at 456 Canton Road and operating the Jui Sheng Piece goods shop at the monthly rental of \$262.24; the plaintiff Chang Chi-san is occupying the premises at 452 Canton Road and operating the Shun Cheng Piece goods shop at the monthly rental of \$209.79; the plaintiff Chiu Hung-ting is occupying the premises at 434 Canton Road and operating the Ho Tung Shoe Store at the monthly rental of \$188.81; the plaintiff Nien Huan Yao is occupying the premises at 435 Canton Road and operating the Chong Kuan at the monthly rental of \$188.81; the plaintiff Wang Ying is occupying the premises at 430 Canton Road and operating the Hung Shue Store at the monthly rental of \$188.81. That the plaintiffs have been occupying the said premises for more than ten years; that during the said period the rentals have been on several occasions increased on the ground of prosperity of the market; that the present rate of rental is most twice as much as the original rental; that the plaintiffs have been suffering from the oppression from the capitalists; that in recent years there has been a general and serious depression; that as rental could be increased at prosperous times, it could be reduced at hard times; that the value of real property in Shanghai has depreciated which is a well known fact; that according to law either party may apply to Court for increase or reduction of rent as the value of the real property should increase or decrease; that on these grounds the plaintiffs ask for a reduction of rent.

## Reductions Near By

"The plaintiffs also allege that the other landlords of the neighbouring property have reduced the rent by 50 per cent, which are substantiated by the rent receipts; that the plaintiffs' demands are not without precedent; that although the defendants contend that the plaintiffs may vacate the premises if they should find the rent too high, the plaintiffs have all established business in the said premises and that so it is almost impossible for them to vacate these premises. The plaintiffs also contend that as the result of the hostilities in January, 1932, they closed their business; that according to custom and the order by the Municipal Government, the plaintiffs should be exempted from paying two months' rent; that the defendants have refused all the demands of the plaintiffs and so they brought this action. The plaintiffs produced four rent receipts, chit-oks and newspapers to substantiate their claims.

"Counsel for the defendants asked for dismissal of the action with costs and alleged that the plaintiffs have not shown that the defendants have increased their rental at the present rate since January 1, 1931 at which time the adjustment of the said rental was made; that there might have been increases prior to the said time if there were any, such increases were made by the former owner in which the defendants took no part; that at the time when the tenants agreed to continue the tenancy at an increased rate, there was a contract from which neither party could withdraw without the consent of the other, that as the plaintiffs did not agree to the reduction requested, the plaintiffs cannot alter the terms of such tenancy without the consent of the defendants; that as the plaintiffs are tenants on monthly tenancy, they are always at liberty to terminate such by notice and vacating the premises if they could consider the rental exorbitant and unreasonable, that the defendants should not be forced to grant a reduction; that the only ground upon which the plaintiffs could ask for a reduction of rent is that the value of the real property they occupy has depreciated in value; that the plaintiffs have produced no evidence whatsoever to prove depreciation of the property they occupy; that the order of the Municipal Government only permitted exemption of rent in the Hongkew area, that is, north of the Soochow Creek; that the premises in question are situated south of the Soochow Creek; that the plaintiffs demand for two months' rent exemption is therefore groundless.

## Reasons

"A contract when made with the agreement of the parties thereto is binding and cannot be altered by one party without the consent of the other unless the contract is void or voidable under the law. This is the rule laid down in decisions by the late Ta Li Yuan. In this case it is an undisputed fact that the plaintiffs agreed to the present rate of rent in January, 1931. Both parties have carried out the terms of the contract for the past few years without any controversy. It is quite obvious that the contract was consummated and has been binding and as such it cannot be altered by one party without the consent of the other. So the plaintiffs' claim for a reduction of rent in an amount equal to 40 per cent of the original rent on the ground of general depression cannot be entertained in law. It is true that Messrs. Sassoon & Co. have granted a reduction to their tenants but that is a different and separate contract and cannot be binding upon the defendants. It can neither be made a precedent to apply to this case. Where the property rented is real property either party to the contract may apply to the Court for increase or reduction of the rent as the value of such property should appreciate or depreciate. This is provided in Article 442 of the Civil Code. But under the law of procedure burden is upon the plaintiff to prove any fact that is beneficial to his claim. There has been no evidence to prove that the real property occupied by the plaintiffs has depreciated in value or to prove the extent of such depreciation. It is not sufficient just to allege that the value of the real property in general has depreciated. The plaintiffs also ask for exemption of rent. The Court finds that the premises rented by the plaintiffs are located on the southern side of the Soochow Creek and are not within the area affected by the order of the Municipal Government. The plaintiffs have not asserted such claims for the last few years and this shows that they have raised no objection to the payment of the rent.

"This Court, under the above circumstances, finds the plaintiffs' claim to be without reason and has given its judgment as above under Article 78 of the Civil Procedure."

# ARTICLE 442 OF CIVIL CODE AND RENT LOWERING

New Hope in Statement  
on Currency Reforms

MORTGAGE SECURITY

Harmful Curb on Supply  
and Demand

SPECIAL TO THE "N.-C.D.N."

The statement issued in connection with currency changes on Sunday and published on Monday makes reference to the creation of a special institution by the Government in Nanking to deal exclusively with mortgage business, and that steps would be taken to amend the present legal code so as to improve the security of mortgage deeds, stimulates the hope that the occasion will be availed of to revise Article 442 of the Civil Code under which recent applications to the District Court for reductions in rent have been made.

While it is true that the article in question permits landlords to apply for an increase in rent if the value of the property increases, and is consequently fair to both parties, the fact is that it is an attempt to interfere with the ordinary law of supply and demand, and to provide a method of doing so which it has already been shown is capable of capricious interpretation.

## Property as Security

It is here suggested that in addition to making those changes which have already been suggested in connection with mortgages, attention might be given to the matter under review because, as has already been pointed out the existing law and possible methods of its application constitute a serious danger, and an obstacle to what after all is a very necessary business,—the lending of money against property as security.

From reliable sources it is learned that approximately 20 per cent. of built up property is at the present moment vacant. Landlords, in their own interests as well as that of their tenants, have in many instances willingly reduced rentals. Others have probably only to be approached with a good case to secure similar relief, for no landlord desires to keep his properties empty and will accept a lesser rental rather than have no tenants.

Those who are agitating for reductions have not always unimpeachable motives behind their actions, as has already been pointed out. But if a tenant really is unable to pay the rent which is being charged, and the landlord knows that the rental he is charging is so reasonable that he would have no difficulty in securing a new tenant, if the dissatisfied one would vacate the premises, surely it is only reasonable to require that the dissatisfied tenant should seek other and cheaper quarters.

## Special Circumstances

It is a matter of simple logic to argue that, if the landlord can obtain the same rental from a new tenant, there has in fact been no decrease in the value of the property, but that an order from the court would bring about just such a reduction, and the result upon the mortgageable value of the premises consequently has to suffer proportionate diminution.

The analogy which it has been sought to draw between the Rent Restriction Act in Britain and Article 442 is not a good one. Conditions are not the same. In the case of the former it was a piece of special post-war legislation drafted for the purpose of preventing landlords taking a profiteering advantage of the housing shortage, especially with regard to properties of moderate and low rentals. There is no shortage here and there is all the evidence in the world to prove that landlords have not been profiteering.

There is yet another aspect of the matter to which serious consideration should be given. As the Article has been interpreted in one action it may very well have the effect of granting to the tenant a lease in perpetuity, for it would seem clear that so long as the tenant continued to pay regularly the reduced rent as ordered by the Court, it would be impossible for the landlord to secure a termination of the tenancy.

## Term of Tenancy

It might be possible to bring forward a prospective tenant to say he would willingly pay the higher rental, but the fact that he might eventually pay it for only a month would undoubtedly be held by the Court to be no proof of the increase in value of the premises. If the tenant on the other hand agreed to pay the increased rent for a fairly lengthy period, the Court could very well argue that as this involved a lease for a term, and not a monthly tenancy such as covered by the Article, the landlord's application and the arrangement he had come to with a prospective tenant were designed to remove the property from the operation of the Article which is under criticism.

From a municipal point of view the logical operation of Article 442 would be unfortunate, for it places in the hands of a third party, the Court, power to effect reductions which if carried out on the scale some of the agitators desired, would result in considerable diminution in municipal revenue at the very time when such is least desirable.

## Litigation Costs

These practical difficulties which the presence of the Article on the statute books creates are by no means all. It is possible for a tenant who does not intend to pay to force landlords to go through lengthy processes of law, to recover outstandings, and even when they have succeeded in their claims they have been faced with the fact that during the lengthy process of litigation, further arrears have accumulated and the same weary process

# COURT DECISION ON RENTS CUTS CONFUSES ISSUE

Realtors Perturbed at  
Recent Judgment

EFFECT ON MARKET

Peculiar Provision of the  
Law Dangerous

SPECIAL TO THE "N.-C.D.N."

Two cases recently decided by the Special District Court judges are creating a great deal of perturbation in real estate circles for they reveal a peculiar provision of law on the one hand, and a diversity of opinion among the judges as to how it should be administered.

Within recent months groups of tenants have come together for the purpose of securing reductions in their rentals. Not because in the main the landlords or their representatives have been unreasonable in the adjustment of rents to the ability of their tenants to pay, but because it was fancied by the originators of the movement that corporate action would secure better results than individual negotiation. These organizations, however, have not always been formed by people with clean bills of health in the matter of the payment of rents, for in a number of instances the leader has been found to be one who, having fallen a long way in arrears, has sought by stirring up this particular form of agitation either to avoid or delay final payments and in any event to obtain a reduction not only of his future rent, but of that which is already owing. There has consequently been added to the existing difficulties of the real estate business, further disadvantages which the state of the law and the decisions of the Courts have done nothing to remove.

## Cases in Point

In one of the cases under notice a suit was brought against a group of Chinese tenants by a landlord to recover arrears of rent. The defendants pleaded that as there had been a drop in the value of the property which they occupied the rent should be reduced by 40 per cent. and the judge before whom the case was tried, holding that such a decrease was unjustified, nevertheless compromised by ordering that the defendants should pay 20 per cent. less, making his order operative as from the first of the year. Whatever the future payments may amount to, it is obvious that by such a decision the landlords have been mulcted in two months of the past ten months rentals which were already due.

The decision is founded upon Article 442, of the Chinese Civil Code, which lays it down that:

In case the thing leased is an immovable, either party may apply to the Court for an increase or reduction of its rent in proportion to the fluctuation of its value, unless the lease is made for a definite period of time.

In the second case a number of tenants sued their landlords for a rental reduction of 40 per cent. on the ground that the market value of the property had depreciated and that the tenants were suffering from an unprecedented depression.

## Law of Supply and Demand

The defence contended that the rent had remained the same since 1931; the landlords considered the rental charged was so reasonable that they would have no difficulty in replacing the tenants if they cared to move out. Arguing that the law of supply and demand applied in this case as it did in others, counsel for the landlords submitted that it was insufficient to prove that the values of real estate in general had decreased, but that in order to succeed the tenants would have to show that the property which they actually occupied had depreciated, and also to prove the actual extent of such depreciation. General depression was not, under the article in question, a ground for ordering rental reduction. That view was accepted by the Court which refused to grant the plaintiffs the relief which they sought.

## Decisions Considered

The result of these two contradictory decisions is to bring about a chaotic condition which obviously requires remedying. The first decision indeed creates a paradox, for if the value of property is to be considered as based upon the income it will bring in from rentals, then it is obvious that the decision of the Court itself has brought about the depreciation. The second, it is contended, correctly interprets the law as it stands and is in all senses the more serious from the point of view of the real estate holder.

In that instance plaintiffs failed because they merely advanced the existence of general depression as proof that the property they were occupying had fallen in value. The Court could accept no such proof, but in deciding in that manner it made permissible the deduction, that if the plaintiffs had been able to prove that the property actually had fallen in value a reduction in rent would have followed under the Article quoted. The proof required is sufficiently strict that a close adherence to the law, should make it well nigh impossible to secure that which the Article is presumably intended to provide for in the absence of a reduction in the municipal assessment, the value of a property can only be a mere expression of opinion such as a court should be reluctant to act upon.

## Principle at Issue

Nevertheless the principle underlying the Article is economically so unfortunate that its repeal or amendment is eminently desirable. So long as it remains upon the Statute Book it is a serious threat to the economic stability not only of Shanghai but of the whole of China. It has the effect of importing a degree of insecurity into transactions involving landed property, which may still further increase the present depression and prolong it indefinitely. For apart from

## Hardoon Plans 10 More Suits Against Tenants

### Actions Will Be Filed If No Settlement Can Be Made

With three suits for back rent still to be heard against Hardoon tenants on Nanking Road, 10 more actions of the same nature will probably be filed with the First Special District Court in the near future, a spokesman of the Hardoon estate told a CHINA PRESS reporter last night. It all depends on whether or not some mutually satisfactory arrangements can be made within the next few days, it was stated.

In the meantime, however, the action of the First Special District Court this week in ordering a 30 per cent discount in rentals in connection with action brought by the Lih Dah Realty Company against some tenants on East Seward Road, is causing some concern to the Hardoon people. Despite this ruling, they are prepared to go ahead with their cases, the spokesman stated.

Since starting the rent reduction movement, members of the First Special District Rent Reduction Association, whose places of business are located along Nanking Road, have made little headway in their repeated negotiations with the Hardoon firm. Apparently both parties are sticking to their guns. No sort of compromise has been reached as the parties to the negotiations have advanced almost the same plea for their inability to see eye to eye with each other, to wit: business is bad, and we are all in the same boat.

Although a suit was filed last Saturday against tenants at Nos. 691, 699, and 463, Nanking Road, the Foo Loo Zoo Restaurant, the Heng Teh Lee Clock Shop, and the San Yih Silk Store respectively, for claims totaling \$15,787.83, no definite date has been announced by the First Special District Court for hearing. The Foo Loo Zoo Restaurant is said to be nine months in arrears, the other two shop houses four months each.

More than 18 other shop houses on Nanking Road will also be sued for back-rentals as soon as the debtor's judgment on the first three tenants has been handed down, according to information obtained from the Hardoon estate officials.

Other tenants on Nanking Road are alert to the results of the impending suits between the Hardoon estate and their tenants, as this is considered a test case in court. Whatever might be the court decision, the tenants on Nanking Road and elsewhere are anxious that the court take into consideration the circumstances of both debtors and creditors, and pay special regard to the present plight of local business, a spokesman of the First Special District Rent Reduction Association declared yesterday.

# Landlords In City Now Out On Big Limb

First Special District Court Orders Realty Firm To Cut 20%

VERNACULAR PRESS HAILS DECISION

Property Owners View Judgment As Of Grave Import

Coming almost on the eve of the Hardoon rent case trials, the First Special District Court has handed down a decision ordering a 20 per cent discount in payment of rents in passing judgment on a case brought by the Lih Dah Realty Company against tenants living at Hwa Hsing Li, East Seward Road, a CHINA PRESS reporter learned yesterday.

The action was brought by the realty concern for recovery of back rents and the claim was undisputed by the defendants, except that they requested a reduction in rentals on the grounds of depressed circumstances and lack of business.

## Press Praises Up Decision

The vernacular papers have given considerable space to the judgment, maintaining that the court has finally taken cognizance of the importance of the rental reduction movement which has been underway for several months past. One the other hand, realtors and property owners interviewed yesterday afternoon by a CHINA PRESS reporter are inclined to view the decision with grave concern.

Some concern was expressed at the offices of the S. A. Hardoon Company, who have three similar actions now pending in the First Special District Court and expected to come up for trial before the end of the current week. This firm has refused to reduce rents in compliance with demands made upon it by the First Special District Rent Reduction Association, and tenants in arrears, especially the three defendants in the actions now pending, have deposited the rental sums with the court to be held pending the outcome of the trials.

Attorneys of the Franklin Chin Law offices, who represented the Lih Dah Realty Company in the suit, expressed an opinion on the outcome of the case. They stated that while they were fully aware of the general depression in this city, they are inclined to believe that the slump is general and is felt by everyone, property owners along with everybody else.

They therefore took the attitude that before the Shanghai Municipal Council or any other official agency could reassess land values, lower taxes and lower interest rates on mortgages would have to be made first. For this reason, they pointed out, the court ruling lowering rentals means the shifting of all burdens by a single party, namely the property owners.

An appeal will be filed against the judgment, not exclusively for the benefit of this one case, but as a test case under existing conditions. Attorneys of the Franklin Chin offices stated.

## "No Cuts, No Pay" Is Rent Group Slogan

**Nantao Reduction Body Urges Vigorous Action, Plan Nanking Appeal**

"No reduction, no pay," is the slogan adopted by the Rental Reduction Movement Committee of Nantao at a meeting held yesterday afternoon.

According to the decision, all tenants and merchants in Nantao will be notified to cease payment of house rentals to their landlords beginning from October and to deposit the rentals due the landlords in specially designated banks. Payment of the rentals in arrears will be made only after the landlords have taken the initiative of reduction in accordance with the schedule drawn up by the Rental Reduction Committee.

It was further decided to send a delegation to Nanking to present to the sixth plenary session of the Central Executive and Supervisory Committees of the Kuomintang on November 1 a petition urging the central government to issue a decree calling for a general reduction of house rentals. Other groups in the foreign settlements of Shanghai behind the rental reduction campaign in Shanghai will be asked to join in the delegation.

#### FIRE BRIGADE EQUIPMENT

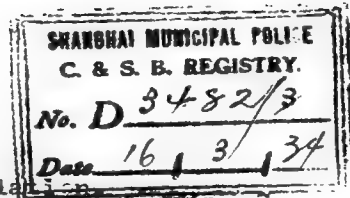

Lawyer Wu Hwa Tai (吳華泰) has addressed the following letter to the Fire Brigades in the foreign Settlements in this locality :-

"The local fire brigades are considered most competent. Recently many high buildings have been constructed. The fire brigades may experience difficulty when extinguishing fires in high buildings. If fire breaks out on the ground floor of a high building, the persons residing on the top floors would be unable to avoid danger. Although the fire brigades are equipped with long ladders, when many persons are in danger, they can not all be rescued. Thus "rescue nets" or "safety nets" are required. These nets are made of thick rope. When fire breaks out, these nets can be used and persons residing on top stories can be rescued. The nets are used in foreign countries, but the fire brigades in the foreign settlements in Shanghai are not yet equipped with them. I hereby suggest that henceforth the nets be taken into use."

TENANTS IN TUNG HAI LI ALLEYWAY PROTEST AGAINST INCREASE  
IN RENTALS

Some time ago the water supply to the houses in Tung Hai Li (通海里) Alleyway, Tungchow Road, was disconnected because the tenants refused to agree to an increase in rentals. Later the dispute was settled.

The landlord has again demanded an increase of \$2 per month for the water rate, but the tenants declined to accept the proposal on the ground that the rentals are high and that the landlords of other terraces in the vicinity pay the water rates.

At 10 a.m. yesterday the water supply to the houses in the alleyway was again disconnected. In consequence of appeals made by the tenants, the hydrants were opened. When interviewed by a reporter of the Sin Sin News Agency, a representative of the tenants stated :

"The landlord has frequently disconnected the water supply. The tenants of the alleyway will hold an emergency meeting this evening (March 13), and a manifesto will be issued by the Tenants Federation of the alleyway.

"The houses in the alleyway were built in 1929 and the monthly rental for a shop is \$33 and for a dwelling house \$26.

"Since the January 28th Incident only 2½ months rent was remitted by the landlord of this alleyway whereas 3 and 4 months rent was remitted by the landlords of Shing Lung Li (六仁里) and Nyl Shing Li (義興里) Alleyways.

"In December last year the water supply in the alleyway was disconnected for several days. Now the water supply is again disconnected. The rentals of other houses in the neighbourhood are lower yet water charges are included in the rent.

"The landlord does not consider the tenants of this alleyway and has disconnected the water supply. The tenants of the alleyway will unite and protest against the increase."

#### RENT REDUCTION

Most residents in Shanghai are complaining against the high house rentals. It is claimed that the greater part of the yearly income of most tenants goes to the landlords. Although we can not ascertain whether or not this is true, it is evident that the house rent is too high. Middle class and low class people experience great hardship in paying the rents. However, landlords, for the most part, have not made much profit from the house rents.

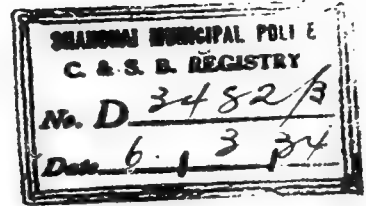

For the past few months, various trades have suffered from the depression, hence the agitation for a reduction in rentals. No doubt, we have to sympathize with the tenants because they are suffering. The landlords must not expect high profits during the present depression.

It is doubtful whether the present rent reduction movement will be successful. It depends on the landlords who ought only to demand reduced rentals during the present difficult times. Even if the rent reduction movement were successful, it would be only a temporary relief to the citizens. Until the S.M.C. can reduce the assessed land value, the landlords, owing to the heavy land tax, will never be willing to reduce the rentals over a long period.

Furthermore, not only will the S.M.C. not agree to the low assessment, but land owners also do not expect it. To attain the object of a reduction in rents by means of this process is not a sound scheme. Rents are high, because the cost of land is prohibitive. When land owners determine their rents, they have to take into consideration the cost of land, land tax, construction outlay, water charges. Of these items of expenditure, the land cost is the most important and because of the high price for land, land tax is also high. Therefore, in solving the problem of a rent reduction, special attention should be paid to the land cost. Since it is impossible to expect a low assessment, the hope for a rent reduction for houses situated in locations where the price for land is exorbitant, should not be entertained.

According to our opinion, the only way to lessen the burdens of the people is to build houses for them in places where the land is cheap. Before starting to build houses in these suburban areas, the first thing that should be done is to provide transport facilities. The people responsible for these enterprises should be the City Government and Chinese bankers. There are places outside the Concession and Settlement limits that can be developed, but the reason why these regions have not been developed is chiefly because no ample transport facilities have been provided, not because the supply of dwelling houses in the present residential area is sufficient for the demand.

Of late, vacant houses in the Concession and Settlement have become more numerous than before. This is the natural result of high rents. Therefore, we firmly

The houses in the Markham Li Alleyway (麥根里) off Markham Road belong to Credit Foncier d'Extreme-Orient and number about 160. The tenants are mostly of coolie class and many of them are unemployed as a result of the late Sino-Japanese hostilities.

Commencing from August of last year, the landlord notified the tenants to pay \$2 per month for water charges, but the tenants opposed this measure. The dispute was finally settled by the law court which gave a verdict in favour of the tenants.

Yesterday the tenants again received a notification from the landlord, stating that unless the water charges in arrears amounting to \$10 per house paid within 20 hours, the water supply would be disconnected and the law court would be requested to permit the eviction of the tenants who failed to pay the arrears.

Upon receipt of the notice, the tenants decided to convoke a meeting of their representatives for the purpose of devising ways and means of dealing with the situation.

Yesterday a petition was submitted by the Shanghai Rent Reduction Movement Committee to the local Tangpu, the Bureau of Social Affairs and various law courts, which reads as follows:-

"Since the 28th January Incident, the market has become depressed and unemployment has been on the increase. It is hard to foretell what calamity will befall the people in this city should conditions continue as they are now.

"Of all remedies for the present precarious situation, rent reduction is considered the most efficacious.

"The relationship between landlord and tenant should be friendly for one's misfortune is the other's misfortune. There are, however, a few landlords who disregard the interests of the people during the present period of acute depression and increase the rents. If the increase is not paid, they request the law court to seal up property or serve notice to the tenants to remove.

"Of 3,000,000 people in this city, nearly 80 percent of them are tenants. These people are hardly able to pay for their clothes and food. How can they pay high rents? Hard pressed, a number of people have become bankrupts and in some cases have committed suicide.

"This Committee was inaugurated in compliance with the request of the people and was sponsored by various legal public organizations. It has been registered with the local Tangpu.

"At a meeting of representatives of all public organizations, measures to secure a reduction in rent have been drawn up and a resolution has been passed that Municipal Rates remain as before and landlords pay Municipal Rates on all vacant houses.

"We would request you to enforce the resolution and to forbid landlords from demolishing the houses or increasing the rents."

THE RENT REDUCTION MOVEMENT

The Executive Committee of the Shanghai Rent Reduction Movement Committee will hold the third meeting at 2 p.m. Thursday February 22, at the Chinese Chamber of Commerce. A notification has already been issued to the members.

The First Special District Citizens Federation will hold the 9th meeting of the Executive Committee at 2 p.m. to-morrow, while the First Special District House Rent Reduction Movement Committee will convene the first meeting of the Executive Committee at 2 p.m. Feb. 23.

Some time ago, the various schools in the city formed a sub-committee of the Rent Reduction Movement Committee with an office in the premises of the Shanghai Educational Association.

The Si Cheng Li Alleyway (西城里), Rue Chapsal, French Concession, belongs to General Sun Shan Fang (孙传芳), a former Tuchun, and the rents were formerly collected by the Credit Foncier d'Extreme-Orient on his behalf. Since December last year, the rents have been collected by the I Yuan Company (易元公司). With a view to standing well with the landlord, the company sues every tenant who owes three months' rent.

At the end of the last lunar year, there were thirteen tenants who were unable to clear off the arrears and yesterday the property of these 13 tenants was sealed by the law court.

All the tenants of the alleyway became enraged at the action of the landlord and decided to organize a tenants association to deal with the situation. They are now applying to the Rent Reduction Movement Committee for assistance.

The houses in San Tou Li Alleyway (三头里), Dah Chi Road, Nantao, are the property of the Lih Yih land Estate Company (利益地产公司). The rent for each house is \$32 per month, excluding water and electric charges.

On January 31, the tenants wrote to the company requesting a reduction in the rent, but no reply has been received.

On February 16, the tenants held a meeting at which Chang Loong Hai (张龙海) presided. It was resolved that a unit of the Shanghai Rent Reduction Movement Committee be formed and that 5 persons including Chang Loong Hai be appointed members of the unit. It was also decided to deposit the monthly rentals at the West Gate Branch of the Shanghai Commercial & Savings Bank pending a settlement of the question.

Lawyers Mai Ngoh Chang (梅鹤章) Wang Zung Kuan (汪永宽) and Wang Dah Ding (黄达平) have been retained as legal advisers of the unit.

THE RENT REDUCTION MOVEMENT

Since the formation of the Shanghai Rent Reduction Movement Committee, many tenants have applied for registration and a number of foreign organizations including White Russian, Indian & Japanese have also written to the Committee pledging support and applying to participate in the movement. Even British and American residents, who have the welfare of the public at heart, have written encouraging the Committee.

It is ascertained that the Japanese Merchants Association held a meeting at 3 p.m. yesterday at the Japanese Residents Club. Rent reduction was discussed and a resolution that a committee to study rent reduction be formed was passed.

Regarding the White Russian Association, it is learned that a meeting will be convoked to discuss the question of rent reduction in a few days.

In the Special Districts, there are about 1,000 private schools and most of these schools are housed in rented premises. As the rents are high, these schools find it hard to extend their work. Yesterday these institutions held a meeting and about 300 schools were represented. A rent reduction sub-committee was formed and 23 persons including Koo Yu Jen (高友仁) and others were elected to serve on the sub-committee and 7 persons including Ting Ngc (丁鶴) and others were elected members of the Standing Committee. Hsu Wai Ling (徐克成) and one other were nominated to represent the sub-committee on the Shanghai Rent Reduction Movement Committee.

At a meeting held yesterday by the 26th Sub-Committee (Kiangsi Road) of the First Special District House Rent Reduction Movement Committee the following resolutions were passed:-

- 1) That a manifesto be issued.
- 2) That citizens be instructed to participate in the rent reduction movement.
- 3) That handbills and leaflets regarding the rent reduction movement be distributed.
- 4) That rent investigation forms be distributed.
- 5) That Wang Han Liang (王漢良) and Zing Teng San (鄭东山) be nominated to direct the rent reduction movement.
- 6) That letters bearing on the rent reduction movement addressed to the sub-committee be sent to No. 71 Kiangsi Road.

THE RENT REDUCTION MOVEMENT

D. 3482.

The people of the favoured classes are always cunning, and can deal effectively with any movement which affects their interests. For instance, the recent rent reduction movement has spread throughout Shanghai; those who possess estates feel that their interests are at stake, and immediately, they begin to protect their interests, suspending the construction of new houses, thereby endangering the livelihood of 300,000 workers. These workers will naturally be utilized to oppose the rent reduction movement, and the Rent Reduction Movement Committee is faced with a difficult problem. A dispute has now arisen between the workers whose employment is threatened and the Rent Reduction Committee, and the real estate owners have withdrawn from the "battle-field".

Hoping to settle this dispute for the welfare of the citizens, we, the spectators, express the following opinions:-

It is common knowledge that the house rent in Shanghai is higher than in other parts of the country; and it is also a fact that the livelihood of local citizens has been seriously affected by the world economic depression and the Shanghai Sino-Japanese hostilities. Hence, the rent reduction movement receives general approval. For the sake of the future of our three million local citizens, the movement must continue. But, ignoring the general situation, the local house owners have dexterously used the masons and carpenters to oppose the movement.

At present, the most suitable measure to solve this problem is to petition the City Government to prevent the house owners from suspending construction work, and the masons labour unions should be urged and assisted by society to fight against the suspension of work instead of against the rent reduction movement.

PUBLIC SAFETY

Some days ago, an omnibus of the China General Omnibus Company ran onto the pavement, damaged five rickshaws and wounded four persons one of whom succumbed to his injuries. The Municipal Police charged the driver with manslaughter through neglect of duty, but the driver argued that when he found that the brake was not in order, he sent a telephone message to his Company, but instead of changing the car, the Company only despatched a fitter to repair the brake.

Whether the driver should be held responsible for the accident or not will be left for the court to decide. For the sake of public safety, we should pay attention to the public utilities question. If an accident happens through the fault of a driver or fitter, the Company should still be held responsible.

Some time ago, a railless tram car was involved in an accident when the floor board collapsed and injured passengers. The Company is obviously responsible for that accident.

Many accidents have occurred. If the law court were to mete out severe punishment to guilty persons as a warning, if the S.M.C. conducted a strict inspection of the cars before permission is given to operate them, and if the residents protest strongly in connection with these accidents, the street will not be so dangerous.

PROPOSED INCREASE IN RATES

Recently, the S.M.C. has attempted to increase the municipal rate on account of the increase of the educational grant issued to Chinese schools.

With regard to this matter, Chu Yu Chang (朱宇蒼), yesterday sent the following letter to the Chinese Ratepayers Association of the International Settlement:-

"Shanghai has been seriously affected by the world depression and the January 28 Incident. Unexpectedly, on January 31, 1934, when the S.M.C. was discussing educational affairs, the Finance Department of the Council proposed that the municipal rate be increased 16% in order to facilitate the educational administration. The living conditions of the people are not considered.

"During the present rent reduction movement, can the municipal rate again be raised and the heavy burdens of the citizens be increased? If the proposal of the Finance Department of the S.M.C. be approved, it means that the dispute between the house owners and the tenants will become more complicated. So, the house owners should also take action although the rate is paid by the tenants alone.

"I request you to demand the cancellation of the proposal".

Despite the fact that the Soochow Hsien Government recently submitted a demand for the retrocession of the Japanese Concession at Soochow, the Central Government has not yet taken up the matter with the Japanese authorities.

Information secured from diplomatic sources shows that the Japanese Concession at Soochow was established in 1896. According to the Peking Agreement concluded between China and Japan, the Concession rights will be withdrawn after thirty years, and if the two parties do not desire the retrocession of the Concession or a revision of the Agreement at the time of expiration, the Agreement will be effective for a further period of thirty years. It is now eight years since the Agreement expired (1926) and it is unlikely that the Japanese Concession will be returned to China at the present time.

## Landlords Uneasy As Rent Reduction Talk Grows

Chinese Schools Join Move Begun By Settlement Tenants; Meetings By Several Co-operating Groups Scheduled During The Week

The rental reduction movement, begun in a small way by Chinese tenants who claimed to have suffered from the 1932 hostilities and from the general depression, is daily gaining momentum, according to reports, and considerable uneasiness prevails among foreign and Chinese landlords and property owners, who are as yet unable to accurately gauge the strength which is behind the protests. Following the suit of the Chinese Real Estate Owners Association in meeting on Monday to consider the situation, it is learned that several foreign groups in the Settlement and the French Concession will also rather soon to view conditions and possibly to take some action.

At the meeting on Monday the Chinese property owners associa-

tion passed resolutions to notify the Shanghai City Government of their decision to reject demands for reduced rentals, but on the other hand it was decided not to increase rentals. Representatives were assigned to attend the meeting of the Water Charges Research Committee of the Shanghai Municipal Council on Thursday. The Research Committee is composed of foreigners and Chinese.

### Schools Join Movement

It was also learned yesterday that representatives from more than 60 Chinese middle schools decided to back the reduction movement after a meeting held on Monday. It was decided that rentals for school buildings should be withheld from the beginning of February pending a final settlement of the matter. Representatives from nine schools were elected to serve on a special committee which will co-operate with the Settlement Rental Reduction Committee. At a meeting called for to-morrow the principals of all the schools participating will meet with the committee to discuss further steps.

The Chapel committee, co-operating with the central organ, decided on further action at a meeting also held on Monday and attended by 20 representatives. It was decided to cancel all leases, to move for an equal relief for sub-tenants and to submit requests to the landlords for a reduction in rentals.

With meetings of the First Special District Citizens Federation, the Settlement Committee and other groups scheduled during the next two days, and with the S.M.C. meeting called for Thursday, it is expected that more accurate measurements of the amount of agitation will be available.

THE RENT REDUCTION MOVEMENT

73482

Consequent upon the present rent reduction movement, the Shanghai Real Estate Owners Association held a special meeting to discuss the situation. It was resolved that all members of the Association be notified not to construct any new buildings and that the Waterworks Company be requested to introduce a rule stipulating that the water charges be paid half by the house owners and half by the tenants. At the same time, the Water Rate Investigation Committee of the S.A.C., with a view to settling the water rate dispute, called a meeting of representatives of the Chinese and foreign real estate owners, and the difficult situation of the Shanghai tenants was explained to them. Lately, the house owners have endeavoured to evade the responsibility of providing water for the tenants.

The tenants have demanded a reduction in rents because of the present trade depression. However, the house owners maintain that high rentals have resulted from the increase of land value and the high cost of construction materials entailing only modest profits for the property owners. We know that the house owners at least make some profit from the rentals, otherwise they would be unable to pay the land tax, water rate, insurance fees and the interest on the money they borrow for construction purposes, but for the owners to demand high profits, during the present economic crisis is intolerable.

S

As a rule, the water rate is included in the rent. Formerly, 5% of rentals was appropriated for the payment of the water rate, but lately, the rate has increased. This rate is collected by the house owners from the tenants, and the owners pay the rates to the Waterworks Company. But do the house owners hand all the money for the water rate paid by the tenants to the Waterworks Company? House rents have increased, and consequently, the percentage for water rate has increased also. This is a question of doubt regarding the payment of the water rate.

The Waterworks Company is a commercial concern, and is certainly entitled to its profit. But the Company is also a public utility enterprise and investigations to ascertain the actual profit made by the Company would prove worthwhile. It is learned that the Waterworks Company has been extremely prosperous during the past few years, and the shares have increased in value. There is no reason for the Company to increase the profits. Regarding the advisability of installing water meters, a doubt also arises.

THE RENT REDUCTION MOVEMENT

Yesterday the 15th Branch of the First Special District Citizens Federation held a meeting of representatives of the tenants on Soochow, North Shansi and Tiendong Roads at 2 p.m. at the office of the Branch at the Teh An Li Alleyway (德安里). A sub-committee of the Shanghai Rent Reduction Movement Committee was formed and committee members were elected.

There are 78 houses in the Dah Tuh Li Alleyway (大土里), Avenue Foch, and Sun Loh Mei (孙乐梅), proprietors of the French Water and Electric Company, is the owner.

At a meeting held by the tenants of the alleyway last month it was resolved to request him to reduce the house rent by 60%. The owner paid no heed to the request.

Subsequently the tenants formed the "Dah Tuh Li Unit of the 3rd Sub-Committee of the Second Special District House Rent Reduction Movement Committee" and sent 2 persons to negotiate with the houseowner. As a result the latter promised to reduce the rent on each house by \$5 and requested the tenants to pay the arrears of rent.

The tenants then convened a meeting at the premises of the 2nd Special District Citizens Federation at which it was decided to deposit 60% of the present rent in a bank pending a settlement of the dispute.

The houseowner retained lawyer N-i Tseng Ling and sued the manager of the Tai Yuan (泰源) Sauce Shop, who was representing the tenants in the rent reduction movement, at the 2nd Shanghai Special District Court. Yesterday afternoon the Court sent men to seal up the sauce shop until the arrears of \$618 were paid.

Upon receipt of the information the manager of the shop immediately sent \$618 to the Court and the seals were removed. Simultaneously he requested lawyer Zeng Ling Sin (曾令辛) to file an appeal against the houseowner for having spoiled his business and to demand compensation.

The tenants of the alleyway have issued a manifesto requesting assistance from various bodies.

RUMOUR OF BANKRUPTCY EXAGGERATED

Some time ago, it was rumoured that due to acute trade depression, a large number of business houses especially on Nanking Road would close down at the end of the lunar year.

An investigation made by bankers into the truth of the rumour revealed that the statement was exaggerated, for they asserted that the depression was world-wide and that it was usual for a few shops to close down at the end of the lunar year.

## Agitation For Reduction Of Rentals Is Increasing

Chinese Sponsoring Movement Busy Co-ordinating Forces To Bring Pressure On Landlords; District Bodies To Combine Efforts

Although the agitation by Chinese in Shanghai for reductions in house and shop rentals started in a small way, it has been steadily fostered until, to-day, it is assuming important if not dangerous proportions. Just what definite steps will be taken by those behind the movement to secure their objects is not yet clear, but the manner in which the agitation has spread within the last few days indicates that there is more than a spasmodic movement on the part of a considerable section of the Chinese community for some measure of relief from what they regard as unusually high rentals.

Claiming that the Sino-Japanese hostilities of 1932 caused heavy financial losses to a large section of the local community, loss of business and even considerable

property, the Chinese who started the movement for lower house and shop rentals have secured considerable support from a wide section of their countrymen in all walks of life. The Shanghai First District Citizens' Federation is now lending support to the movement and instructions have been issued to various branches actively to co-operate in any general movement for securing lower rentals. These branches of the Citizens' Federation have taken the place of the former Street Unions which were responsible for the conduct of affairs in different city regions and which were held responsible for the welfare of Chinese residents in the respective districts. Many of these are now actively organizing their members for some sort of mass action against high rentals. Tenants have been circularized in these areas and forms have been sent out asking for particulars regarding ownership of property, rental charges, rates paid and other data regarding the letting and sub-letting of houses and shops. Chinese lawyers have been engaged by different districts and are now working on plans which are to be co-ordinated for use in the general movement when it commences.

### No Definite Plans

So far there has been no indication as to the nature of the general movement or when it will commence, but it has been hinted that in an attempt to force landlords to lower their rents, tenants will be instructed to refuse payment until such time as adjustments are made in the scale of charges. If this suggested scheme is carried out and is supported by any large body of tenants in different parts of the city, the possibility of serious trouble is not being overlooked by local officials, especially if any attempt is made to evict tenants.

The Shanghai Rent Reduction Movement Committee is at present the organizing body behind the agitation and is now actively engaged in forming sub-committees in various branch districts of the Citizens' Federation. As an indication of the trend of developments, the Chinese press reports a meeting of tenants in an alley off East Seward Road where, recently, the landlords increased the rent by 30 per cent. It has been decided by these tenants under instructions from the Rent Reduction Movement Committee to stop all payments of rents to landlords until a reduction of 20 per cent. is granted. The tenants have been instructed to pay their usual rents to the Shanghai Commercial and Savings Bank until such time as the decrease is granted.

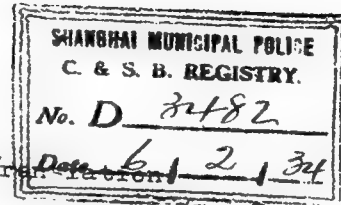

A general meeting of representatives from various district branches of the Citizens' Federation is to be held within the next day or two at which proposals are to be considered and a definite policy and line of action mapped out.

THE RENT REDUCTION MOVEMENT

Owing to trade depression, high house rents and the increase of water rates may result in a critical situation. The present rent reduction movements have been assisted by foreign residents.

We know full well that the prosperity of a commercial port depends upon trade and with an increase in prosperity house rents will also be increased. But with a depression in trade, the rents should not be increased. In Shanghai, house rents have been increased when business has decreased. Capitalists invest money in the estate business without considering the consequences.

The real estate dealers often claim that they do not obtain excessive profits from their business. They only receive the interest from their capital and they have to pay construction expenses, insurance fees, etc. in addition to the price they pay for the land. This is a reasonable attitude, but why has the value of land increased? It is not because so many houses are necessary, but because of competition in the purchase of land. However, these estate dealers are making the tenants pay for the price of the land by increasing the house rents.

We sincerely hope that the Chinese City Government will mark out residential districts for the construction of houses. It is also hoped that the various public organizations will support the house rent reduction movements.

Min Pao publishes the following brief comment :

SPECIAL PARDON FOR LIEU CHUNG WU & OTHERS REQUESTED

Patriots Lieu Chung Wu and others were sentenced to terms of imprisonment last year for bombing the shops of treacherous merchants. An appeal against the sentences is being filed. The Shanghai Chamber of Commerce and other public bodies have requested the Central Authorities to pardon the patriots.

The action of the patriots was illegal and the judicial authorities must sentence offenders. However the accused should be pardoned because their actions were inspired by patriotism.

Special pardons have been given to Zung Chi Zung and General Tong Ngho Ling. The former killed a person in order to avenge his father's death, while the latter gave up Jehol without resistance. Therefore patriots Lieu Chung Wu and others may also be pardoned.

RENT REDUCTION MOVEMENT

Since the formation of the Shanghai Rent Reduction Movement Committee, a number of sub-committees including those organized by the tenants of the Pah Loh Li Alleyway (栢禄里), Pah Foh Li Alleyway (栢福里) and Pah Shu Li Alleyway (栢寿里), off Pingliang Road, the Chung Woo Li Alleyway (中和里), off Ward Road, the Teh Ling Li Alleyway (德林里), off Sinkiang Road, the Jen Woo Li Alleyway (仁务里), off Kuling Road, the Shu Ping Li Alleyway (舒平里), off Ward Road, the Chien Yu Fong Alleyway (建芳坊), Small North Gate, etc. have been registered with the Committee.

The 27th Branch of the First Special District Citizens Federation on 30th January held a meeting at its office at No. 7, Hung Teh Li Alleyway (洪德里), off Chekiang Road. After some discussion, the following resolutions were passed:

- 1) That a sub-committee of the Shanghai Rent Reduction Movement Committee be formed.
- 2) That in addition to the members of the Executive Committee of the Branch, 11 representatives of the citizens be invited to compose the sub-committee.
- 3) That Lawyers Chang Huang Hai (陈德海), Mo Chiun Shek (莫君适) and three others be invited to be the legal advisers of the sub-committee.
- 4) That the sub-committee be registered with the Shanghai Rent Reduction Movement Committee.

Yesterday the First Special District Citizens Federation sent a reply to the Shanghai Chinese Chamber of Commerce, which reads as follows:

"We thank for your letter (which appeared in the press on 27th Jan.) the contents of which have been duly noted.

"We agree with your opinion that the matter of rent reduction should be discussed by the landlords

and tenants themselves under the direction of the Shanghai City Government, but unless we have concrete proposals to guide us in the negotiations for a reduction in rents, we do not see how we can attain our object.

"Your Chamber is the leading association of the people and must be sympathetic with the aspirations for the recovery of the local market for which the rent reduction movement has been launched. We would ask you again to join the movement and to send your proposals to the Rent Reduction Movement Committee for reference."

Although the rent reduction movement has affected the whole city of Shanghai, yet no indication of the attitude of the landlords towards the movement has been given.

With a view to ascertaining the attitude of the authorities, a press representative yesterday interviewed Mr. Kuo ( 郭 ), a secretary of the City Government, who declared that following the institution of the movement much attention has been paid to it by the authorities and that since the landlords were entitled to the profits from rents, no partiality should be shown in dealing with the movement.

The speaker continued that the question of reduction in rents was a very complicated one and that it should be studied by experts.

The Secretary said that the City Government had set up a committee to study the problem and that a report might be submitted to the Government by the Committee in a few days.

"Trade in Shanghai has been on the decline since the January 28 Incident. Not only have the house rents been increased, but the landlords are intensifying the oppression on the tenants. The residents are unable to bear their heavy burdens and have formed the Shanghai House Rent Reduction Committee.

"We hereby announce the inauguration of the various Branch Associations of the Rent Reduction Committee in Hongkew to support the movement of the Committee."

The East Seward Road Branch Association of the Rent Reduction Committee sent the following letter to the Committee yesterday:-

The Association is in receipt of a report from the tenants of Fan Seng Li (潘生里), East Seward Road, reading as follows:-

"On January 17, we received a letter from our rent agency, Brandt & Rodgers, Ltd., a British firm, intimating that our rents would be increased from the Chinese New Year by 30 per cent. Tenants who opposed the increase were requested to pay the rent and vacate the houses at the end of January. It will be recalled that the houses in the terrace were built in 1922 and the rents were \$22 per month and \$50 per month for a single house and a double house respectively. Three years later, the rents were increased from \$22 to \$25 and from \$50 to \$63. The tenants from September 1933 have paid monthly water rate at \$1 and \$1.50. Unexpectedly, our landlord Han Yung Kung (韓育庚), relying on the influence of the foreign rent collector, is increasing the rentals. At the present stage of trade depression, the house rents should be decreased. Furthermore, Han has retained lawyer Chen Chung Ying (陳忠英), who warned us to remove by the end of January if we did not consent to the increase.

"We request your Association to render support."

#### LOCAL ORGANIZATION OF 19TH ROUTE ARMY

The Dah Foh (大北) Pharmacy near the Szechuen Road Bridge was established by Wang Woo Tseng (王和春) and his friends. As Wang Woo Tseng is the former Officer-in-Charge of the Rear Office of the 19th Route Army at Nanking, all military equipment for the army was purchased through this pharmacy. At the outbreak of the Fokien rebel movement Wang left Shanghai for Fokien where he became Vice-Commissioner of the Salt Bureau, while Li Soong Yoong (李松雲), manager of the pharmacy, bought large quantities of military necessities from a local Japanese company and transported them to Fokien.

Li is a member of the Chinese Communist Party. During the Canton Uprising in 1927 he was arrested and imprisoned. He was later released as a result of the efforts made by Wang Qi Ziang (黃其祥).

Following the failure of the Fokien rebellion Li returned here. Ostensibly he is the manager of the Dah Foh Pharmacy, but in reality he is implicated in other activities.

Central China Daily News (Editorial):

# RENT REDUCTION MOVEMENT

Owing to trade depression, various public organizations have combined to launch a rent reduction movement. For this purpose, a rent reduction movement committee has been formed and a series of principles drawn up to guide the negotiations for the reduction. In this connection, the writer has something to say about the movement.

Natural calamities and civil warfare have brought about bankruptcy in rural China. All the money from the interior has been transported to large commercial centres and many unemployed people have flocked to these centres to seek a living. These migrations have accounted for the increase in the population of Shanghai and the development in the banking enterprise.

In countries where industries and commercial undertakings have been developed, the money would be employed for improvements, but in China, a country financially backward, the situation is different, for most of the surplus funds are speculated in land investments. The only thing that has resulted from these investments is the erection of large buildings in the commercial centres, while the people of rural China are being oppressed.

So much for the people of the rural country. But what about the life of city dwellers? In Shanghai, in contrast to the development in land investment, prices are on the decline and the purchasing power of the people has decreased. The rents should be reduced, but on the contrary they are increased. The greater the increase in rents, the less will be the purchasing power of the people. If this state of affairs continues, the situation will become more serious. Therefore, the rent reduction movement is necessary from the standpoint of the living of the people and the development of industry and commerce.

According to the statements made by Mr. Kwei Ye Fong (曹迺芳), member of the Standing Committee of the Shanghai House Owners Association, 90% of the houses in Shanghai are owned by land investment companies and most of the property has been mortgaged to banks. He said that if the tenants wished to reduce the rents, the investment companies would demand from the banks a reduction in interest to compensate for their loss. Thus we know that all these land investments are under the control of the banks. It is unreasonable for the banks to oppose the demand of the people for a reduction in rents as being prejudicial to their interests.

We would advise the banking circles to show sympathy with the people in the rent reduction movement and to sacrifice some of their profits for the benefit of the people.

Chen Pao (Editorial):

We do not believe that the rent reduction movement in Shanghai will meet with success.

We do not mean that local residents should not launch the campaign to secure a reduction of house rents.

January 29, 1934.

Afternoon Translation.

7 3482  
The residents must simultaneously start a movement to effect an improvement of the system of land <sup>rates</sup> in the foreign Settlements. There is a connection between the house rent and the land lease rent and between the land rent and the value of land. Under the existing system, it seems impossible to reduce the land rates in the Settlements and the rent of land in these districts will increase and the house rent will become higher. The Settlement authorities have assessed the value of land at a high rate in order to increase their income.

Another fact will result in the increase in the house rent—the concentration of ready money in Shanghai. The economic system in the Interior of China has collapsed and the menace of banditry reigns in many parts of the country. People in possession of wealth can not live in peace and therefore come to Shanghai. They will become real estate capitalists in view of the depression in other lines of commerce and industry in this city. Moreover, local bankers have invested their money in the real estate business.

In short, the rent question will not be solved until the rates are lowered. The land law must be enforced in the foreign Settlements to limit speculations in real estate.

#### ANOTHER REFORMED COMMUNIST.

Wu Ts Siang (吳子樞) publishes the following statement in the advertisement columns of the "Chen Pao" and other local newspapers:—

Being weak willed, I became the tool of the Chinese Communist Party. When I discovered the deceitful methods of the Party, I severed all connections with it and I am now observing the Three Principles of the People.

In commemorating the January 28 Incident, the editor of the Sin Wan Pao makes the following remarks:—

#### THE JANUARY 28 INCIDENT AND SHANGHAI

After the January 28 Incident, the Japanese built a large barracks on North Szechuen Road. The place is not within the Settlement and the Japanese have no right to build barracks there, especially as the fortresses at Woosung have been demolished and there are no Chinese soldiers stationed at Chapei. The Japanese are ready to recommence hostilities at any time. We tremble to think of the future of Shanghai.

It was fortunate that the Japanese intention to establish Shanghai as a free city was not realized, but the Japanese are still ambitious and are awaiting an opportunity.

Shanghai is the civic centre of China and its prosperity or ruin will affect the world. China and the whole world should offer protection to Shanghai and no further hostilities should be tolerated.

"Regarding the present movement for a reduction in rents, the Chamber has decided to adhere to its previous decision and will not send any delegates to meetings held to promote the movement."

Yesterday, a reporter secured an interview with Mr. Kwei Yi Fong (魏逸芳), member of the Standing Committee of the Shanghai House Owners Association, asking for the opinion of the house owners regarding the movement.

Mr. Kwei stated that it was true that all trades were on the decline. Nevertheless, he continued, 90% of the house owners had mortgaged their property to banks for loans and 9% interest was paid on these loans, while the highest return from land investment only came to 7% after land tax and water charges had been paid.

Mr. Kwei said that most of the property owners were in financial straits and that if the tenants desired to reduce the rents, the landlords would be compelled to demand a reduction in interest, land tax and water rates.

The speaker continued that should the demand presented by the landlords be granted, they would willingly reduce the rents, but that should the tenants refuse to pay rents, financial disaster might follow, for most of the houses were owned by banks and the government bonds would be affected as a result of shortage of money in the banks.

SEQUEL TO COURT FIRE

Some days ago, in the early morning, the kitchen on the roof of the First Special District Court Building caught fire.

Afterwards an investigation was ordered by the President of the Court, Kuo Yun Kwan (郭雲觀) and the two coolies named Wong Shu Hai (黃如海) and Wong Yung Sung (黃榮生) were found to be at fault. President Kuo ordered the two servants to be handed over to the Procurator for interrogation.

As a result, the two servants were prosecuted for infringing Item No. 2, Article 187 of the Criminal Code and were sentenced to two months' imprisonment each.

Considering that according to the Mixed Court Rendition Agreement the power of the Procurator extends from Articles 103 to 186 and that since the prosecution referred to Article 187, the procurator has acted ultra vires, the Legal Department of the Shanghai Municipal Council has lodged a protest with the Procurator.

As the case concerns the judicial power of China, much significance is attached to the outcome of the protest.

Zia Yung Ching (張雲卿) is a good actor, but his conduct is not above reproach.

Some months ago, he established a club known as "The 28th January Club" which has aroused the curiosity of many people and is regarded as a joke.

Some time ago, he encountered a search party on the street and was insulted by the Police, and Zia told his friends how in return he had humbled the Police. One of his audience subsequently wrote an article entitled "Zia Yung Ching and The Police" which was published by this paper on 15 January.

Following the publication of the article, an inquiry was set on foot, the result of which disclosed that the incident mentioned in the article regarding his Court action against the Police was a figment of his imagination.

China Evening News (Editorial):

Various local public bodies have recently organised the Rent Reduction Committee. According to yesterday's newspaper report, local foreign residents of various countries were about to hold a meeting to discuss the rent reduction movement. From the above, it will be seen that the promotion of the movement is the outcome of the sufferings of the majority of Shanghai residents.

The rents of houses in Shanghai are higher than those in any other part of China. In consequence of the high house rents, a one-story small residence houses as many as five families. The tenants sleep, eat and drink there and the smell in the house is even worse than that in a stable. A large part of the income of a family occupying a small corner of the house goes towards paying the rent, and in case of delay in payment, letters from lawyers or warnings from Court follow. The tenants are forced to remove or a part of their property is detained against the payment of the rent due. It is really difficult for us to reside in Shanghai.

Landlords possess capital and expect to obtain interest. In view of the market depression, they invest in the real estate business. During the past few years, a large number of wealthy people have become real estate dealers and the value of land in this locality has vastly increased. Due to the high cost of land and of the construction of houses, the landlords base the house rents on the value of the land and the houses. The interests of the tenants are ignored. Eager to obtain interest, the landlords pay attention to the construction of houses. Unoccupied houses are found everywhere.

The high costs of house rents and land are chiefly due to the congestion of the residents in the busy districts. In the event that the Municipality of Greater Shanghai will exert every effort to provide facilities in out-side districts and encourage real estate merchants to invest in these regions, house rents in the central districts will naturally decrease.

We request the Municipality of Greater Shanghai to consider the matter carefully.

VARIOUS TRADE GUILDS TO DEMAND EXEMPTION FROM LAND TAX

Yesterday at 2 p.m. a meeting took place of various trade associations at the premises of the Shoe Guild on Neewoo Road in the city. About 40 persons representing more than 30 trade associations attended.

Loh Wei-chang (洛維昌), who took the chair, said that the Land Bureau of the Municipality of Greater Shanghai intended to collect land tax in accordance with the new assessments. The tax was 40 times greater than formerly, and the various guilds were unable to pay it.

The Chairman continued that a trade guild was a legal body and that its purpose was to promote the interests of the people in general and the merchants in particular. Formerly, temples which existed for the purpose of propagating superstitious beliefs were exempted from land tax. Since the work of the guilds was for the benefit of the people, it was reasonable to request that the property belonging to these guilds be exempted from the tax.

Following discussion, four resolutions were passed:

- 1) That a petition be presented in the name of the various trade guilds to the Ministries of Industry, Finance, and Home Affairs, the Municipality of Greater Shanghai, and the Chinese Chamber of Commerce, requesting the authorities to exempt the trade guilds from the land tax.
- 2) That Chiang Zai-shao and four others be chosen to compose the committee for drawing up the petition.

#### THE HOUSE RENT REDUCTION MOVEMENT

With a view to alleviating the burdens of the people during the present period of depression, a house rent reduction movement committee was proposed by the various public organizations.

On 16th January, a meeting of representatives of the public organizations was convened at the premises of the Chinese Chamber of Commerce, North Soochow Road, at which the regulations governing the organization of the committee were passed and 35 persons were elected members of the Committee.

It is ascertained that the first meeting of the Committee will take place at 2 p.m. to-morrow at the Chinese Chamber of Commerce and a notification has been issued to the members.

Following the launching of a house rent reduction movement by the various Chinese public organizations, many foreign residents associations have decided to call a meeting in a few days for the purpose of discussing the advisability of joining the movement.

According to the opinions of foreign residents, not only should the house rent be reduced, but charges for electricity, gas, water and telephone service should also be lowered, for they consider that the prevailing depression has affected not only Chinese residents but the foreigners as well. They contend that prices have dropped everywhere in the world except in Shanghai, where the house rent and rates for all public utilities have increased.

The reduction movement is being sponsored chiefly by the Japanese Streets Federation, the White Russian Merchants Federation, the Indian Federation, the Portuguese Residents Association and other residents and trade associations. Even a number of British residents are supporting the movement.

In Shanghai, there are about 50,000 foreigners. The total amount of house rent paid by them is nearly equal to the amount paid by Chinese tenants (in the International Settlement the Chinese pay about £3,000,000 while the foreigners about £2,600,000), whereas the amounts of charges paid by foreigners for electricity, water and gas are more than those paid by Chinese.

The Shanghai Municipal Council has a voice in the control of these undertakings, but the actual power is held by the principals directors of these companies. Inasmuch as

a reduction in rates will be injurious to their personal interests, these directors are opposed to the movement.

Considering that a reduction in house rent means a reduction in the municipal tax, the Shanghai Municipal Council itself also objects to the movement. With a view to influencing the Board of Councillors, the various foreign residents associations are endeavouring to arouse public opinion in favour of the reduction movement.

THE HOUSE RENT REDUCTION MOVEMENT

As a result of the Shanghai Hostilities, a great many people have become unemployed. Those who are still employed have found that their income has been dwindling. Nevertheless, the house rent has remained as high as ever. We can economize on clothes, food and other expenses, but we must pay the house rent. Should we owe one month's rent, the rent collector would ask us to remove.

Now let us leave dwelling houses aside and consider shop premises. In Shanghai, the most prosperous street is Nanking Road, but it is reported that the turnover of the firms now is far less than before the 28th January Incident. Reductions in staff, salaries, etc. have become necessary in order to maintain business, but a reduction in the house rent has not been granted. Since business houses on Nanking Road are in such a depressed state, you can imagine the conditions of those situated on other roads. A walk along Paoshan Road (Chapei) and North Szechuen Road will convince you of the acute depression now prevailing.

Trade is in a deplorable condition and the people are desperately poor, yet business men, factory owners and house tenants are required to bear the oppression of landlords. In fact, everybody is suffering except the landlords.

If a city is prosperous, the house rents are high. Conversely, if a city is not prosperous, the house rents are low. However, in Shanghai, the rent before the war when prosperity reigned has remained unaltered. The landlords alone are reaping the benefits.

Now that the people of Shanghai have found that they are unable to bear such a burden, they have gathered together and demanded a reduction of house rent. Such a movement will no doubt have the sympathy of society,

for everyone hopes for a reduction in house rent.

Our only hope is that the landlords may become conscious of the fact that in view of the depression prevailing in all trades, the house rent should be reduced, for if the landlords remain indifferent to the requests, many business houses will close down and residents will remove to other places. Thus many houses will become empty. The result will be that the landlords will receive nothing from their investments.

We hope that the present movement for a reduction in house rent will extend and will not be confined to one section of the community. On the other hand, we have to pay some attention to the interests of the landlords. No excessive demand should be made.

RENT REDUCTION MOVEMENT.

At 2 p.m. yesterday, the First Shanghai Special District Citizens Federation held a meeting of representatives in the Chinese Chamber of Commerce building, North Soochow Road, to discuss the rent reduction movement. Over 100 persons representing some 50 local public bodies including the Ningpo Fellow Provincials Association, the Native Goods Factory Owners Federation and many branch associations of the Citizens Federation were present.

Zou Ts Kung (曹志功) who presided, delivered the following address:-

"Since the January 28 War in Shanghai, the local market has collapsed and the number of unemployed has increased. Nanking Road was always noted for prosperity. However, due to high house rents, about 80 per cent of shops located on Nanking Road have closed down. Shanghai being the centre of civilization and commerce of China, trade depression in the city will affect the whole country. We should therefore exert every effort to carry out the movement to secure a reduction of house rents. The attendance is requested to express views regarding the campaign."

The following resolutions were passed:-

1. That a manifesto be issued.
2. That a Rent Reduction Committee be formed.
3. That the Committee thoroughly discuss the rent reduction question.
4. That the illegal collection of house rents based on the lunar calendar be abolished.
5. That no increase in house rents follow a change in landlords.
6. That the rents of new houses do not exceed those of the old houses on that site.
7. That, regarding the letter received from the tenants in Tai Wu Ka Street (太和街), requesting that the engagement of a foreign attorney-at-law as agent to collect the house rents be prohibited, lawyers Fessenden and Holcomb be notified of the above.

The manifesto reads as follows:-

"Shanghai is the first commercial port of China and the district is densely populated. During the past few years, trade in this city has been declining and the number of unemployed has increased. Shops and factories have closed, many people have become unemployed, wives and children are sold and <sup>suicide</sup> is of every day occurrence.

"House rents in Shanghai are higher than those in every other part of China, while a few capitalists and real estate merchants, disregarding the welfare of the public, continually increase the rents. A large part of the income of a family goes towards paying the rent and in case of delay in payment, the landlords order rent collectors to resort to illegal actions and instruct lawyers to prosecute the tenants.

~~the movement is successful, the whole will benefit.~~

~~"United support will ensure the success of the movement."~~

#### Rent Reduction Movement In French Concession.

At a meeting held the other day by representatives of residents in the French Concession, it was resolved to organize a "Second Shanghai Special District House Rent Reduction Movement Committee" and it was also decided to detail Wang Niao (王 驍) and two others to proceed to the Second Special District Citizens Federation. It is reported that the three representatives at 2 p.m. yesterday called at the Federation and were received by Wang Mao, member of the Standing Committee. During the interview, the latter stated that following the January 28 Incident, business collapsed especially in the Second Special District. For example some of the shops on Rue Consulat which is regarded as a most important road are unable to carry on their business, but the house rents have not been reduced.

Regarding the house rent reduction movement, he added, the Federation in September last year formed a Rent Reduction Committee, but the movement was unsuccessful owing to lack of support.

He concluded that the Rent Reduction Movement Committee formed by the residents may be amalgamated with the Federation.

It is learned that the Second Special District Citizens Federation will hold a meeting in the near future for the purpose of discussing the rent reduction movement.

The Shun Pao Screen Section publishes the following article:-

#### THE NEW STANDARD OF JAPANESE FILM CENSORSHIP

The Japanese film industry is mostly used for propaganda purposes. Films produced by any film company will only be allowed to be screened when they are in accordance with certain principles. For example, love pictures and pictures showing social conditions are not allowed, while military films which serve as propaganda for the militarists are highly recommended.

Recently, the Education Ministry of Japan promulgated new rules governing film censorship of foreign films and films produced in Japan and the principle to be applied is that all films should propagate the doctrine of militarism.

Japan permits few foreign films to be screened within her territory, because she deems that most foreign films are unfit for screening in the country. Therefore, few productions from Hollywood are seen in Japan. The new regulations of Japanese film censorship forbid the screening of all love films and anti-war films also may not be screened in Japan. For this reason, fewer foreign films than ever can now be screened there.

The films which depict the wars in the North-East are highly praised by the Japanese Government. Most Japanese films are silent.

Hereafter, the Japanese film companies will be the propaganda organs of the Japanese militarists.

RENT REDUCTION MOVEMENT.

Shanghai is the centre of industry and commerce of China and the city is densely populated. Increases in the value of land and the rents of houses must be in accordance with the prosperity of the residents. The movement recently promoted by various local public bodies to secure a reduction in house rents is of much significance.

Trades in this city have been in a state of depression and to maintain business merchants have reduced the prices of all products. The house rents, however, still remain high. A reduction in house rents is essential.

House rents here are extremely high and even a very small room in the International Settlement or the French Concession costs at least \$5 or \$6 per month. People whose income is small suffer great hardships and the interests of these poor people must be carefully considered. The rent reduction movement will become more powerful and success will be attained if the poor residents join in the struggle.

Residents throughout Shanghai should be urged to participate in the recent rent reduction movement and district representatives should be appointed to carry out the work. An appeal should first be made to the Chinese and the Settlement authorities and then definite steps should be taken to ensure the success of the movement.

THE HOUSE RENT REDUCTION MOVEMENT

In consequence of the 26th January Incident and the prevailing economic depression, the local market has become worse and worse. Everyday factories and shops close down. The purchase power of the people has become weaker and weaker and prices have dropped lower and lower. ## RENT REMISSION DISPUTE

### Chinese Authorities' Proclamation

### WAR SUFFERERS NOT TO PAY

The dispute which has been going on between residents of the areas involved in the recent Sino-Japanese hostilities and their landlords over the payment of rents for the period of the fighting and for the two months immediately following the cessation of hostilities has resulted in the City Government of Greater Shanghai issuing a proclamation ordering the remission of rents for periods extending from one to three months.

In the proclamation, the authorities state:—

"After the outbreak of hostilities on January 28, people living in the war zones and the immediate vicinity suffered heavily. In consequence, there has been a general demand on the part of residents for a remission of house rents for the period of the trouble, while the attitude of realty owners is firmly to the contrary. Disputes have ensued and unless this matter is solved without delay, both sides will suffer heavily. Although cases of this nature are really within the jurisdiction of the judicial authorities, the following arrangements have been made by the City Government of Greater Shanghai and must be observed accordingly:—

"The remission of house rents in Woosung, Kiangwan, Yinghong, Chenju, Pangpu, Yinghsiangkong, Chapei, etc. (including the extra-settlement roads in the northern district), should be for a period of three months;

"Two and a half months for houses north of Soochow Creek and west of the North Szechuen Road Creek;

"Two months for houses east of North Szechuen Road Creek and in Yangtszepoo and the vicinity; and

"One month for houses in Nankiao, in the Rubicon and Monument Road areas, and north of Soochow Creek."

## Landlords Complete Victors In Important "Test Case"

Thirteen Tenants In Chekiang Road District  
Instructed To Pay Arrears, Judge Yang  
Holding "Not In War Zone"

A "test" case which will probably influence verdicts in lawsuits involving between 15 to 20 million dollars ended yesterday in the First Special District Court when Judge Yang Bang handed down judgment in favour of Messrs. Algar and Company, in the suits brought by them against 13 tenants who had refused to pay rent for the months of February and March, owing to the Sino-Japanese hostilities.

The total sum of awards totalled merely Tls. 3,186, but the case has been followed with intense interest by landowners and tenants of the city. Landlords and renting agents consider it one of the most important legal battles of the year.

Mr. Andrew C. Y. Law, well-known local solicitor, declared, after the verdict had been rendered, that he would appeal the case.

Judge Yang differentiated, in the argument that followed his statement of the principal judgment, between cases where tenants were unable to make use of leased property, as in Chapei, where they had already been exempted from rental payment during the period of hostilities, and those of International Settlement lessees, who were able to continue residence and accumulation of profits.

### Not War Zone

"According to Article 441 of the Civil Code," his judgment states, "the tenant shall be exempt from paying rent if he has been unable to use or profit from the object leased. But this is limited to circumstances where he finds himself unable to use the object leased as, for instance, when he must remove himself from a war zone. In this particular instance, the tenants did use the houses leased. Despite the fact that profits may have been reduced, as defendants assert, because of the war conditions, such rents cannot be exempted. The houses leased by the defendants are in the Central District. Both parties have agreed that the houses were in places of safety. Since there are no actual facts shown to prove that the defendants were unable to use their leased property during the war period, their refusal to pay the rent for February and March is unreasonable."

### May Get Refund

The Court went on to throw out a motion made by the defence that, inasmuch as the question of exempting rents was now being considered by the Municipality of Greater Shanghai acting as intermediary between landlords and tenants, the question of these particular cases be held in abeyance. However, the Court stated, if the Municipality officials did decide in favour of the tenants at a later date, then the proper authorities would issue a legal order to that effect and the tenants would be able to deduct the money paid from new, accumulating rents.

He also pointed out that the tenants had been unable to show that they had an agreement, verbal or otherwise, with the lessors stating that they would be allowed to go three months into rent arrears. The defence had argued that these suits were in violation of that agreement, because amounts owed were for only two months.

Representing Algar and Company, who, in turn, are agents for the Cathay Land Company, was Mr. A. M. Preston, vice-chairman of the Shanghai Property Owners' Association.

### Thirteen Traders

The properties involved are rented by 13 traders doing business at Chekiang and Pakhoi Roads behind Wing On and Company on Nanking Road.

Amounts of the judgments, to which will be added proportionate court costs, are as follows:

Yung Kong, Tls. 240; Ko Dah Dispensary, Tls. 315; Chen Chuen-foh, Tls. 120; Mei Dah Barber Sheng and Chang Zai-bu, Tls. 225; Dong Book Store, Tls. 435; Yao Chen-kee, Tls. 96; Soochow Hotel, Tls. 360; Wong Hen-yuen and Kwong Kee Hospital, Tls. 285; Liang Hup-kee, Tls. 300; Hua Shon Press, Tls. 675; Woo Hung-sung, Tls. 60, and Chun Dziang, Tls. 75.

Judge Yang had had the case under advisement since June 30, when argument ceased.

# 13 Tenants Sued By Algar Company For Back Rent On Shops Closed During War

## Present Trial Likely To Be Considered "Test Case"

With the eyes of all landowners and tenants in the city turned to a "test" case pending in the First District Court for a decision on the dispute of war rentals which tenants declare they should be exempted from paying for the months of February and March, the hearing of the suit brought by Algar and Company, agents for the Cathay Land Company, against 13 of their tenants opened yesterday morning. After an eventful hearing during which attorneys for both sides based their contentions on different articles of the Chinese Civil Code, Judge Yang Pang announced that he would reserve judgment.

The case which involves 15 to 20 million dollars is considered by landowners and house-agents as well as tenants one of the most important legal battles of the year as many minor differences between landlords and tenants prevalent in normal times can also be decided by a decision of the court.

### Rentals Retained

Practically every Chinese trader in the city has retained the rentals for February and March, asserting that during the period of the Sino-Japanese hostilities they have done no business and their stores and shops were closed following a general strike proclaimed by the Chinese Chamber of Commerce.

Algar and Company, represented by A. M. Preston, vice-chairman of the Shanghai Property Owners' Association, took the lead in bringing civil action against the tenants having named 13 traders doing business at Chekiang and Peking Roads behind Wing On and Company on Nanking Road as defendants in this "test" case.

When the case opened yesterday morning Mr. Preston for plaintiffs handed the judge a map of the city stating that it might be of interest to the court to see where the tenants' premises were located. The houses were situated in the Central District, he said, and was in the most safest place in the entire city during the local hostilities.

### A Question Of Usage

"We have done our part and proved the contract," attorney stated, "and the onus of proof is on the defendants to show why they should not pay their rent."

Replying for the tenants, Mr. Andrew C. Y. Law, well-known local solicitor, said he based his case on Article 441 of the Civil Code which reads: "A lessee cannot be exempted from payment of rent if the use of the premises through his own cause."

Mr. Law argued that the general strike proclaimed and closing of the tenants' premises were not effected through their own cause and the case should succeed on this point.

It was possible that one or two of the defendants' stores were opened during the strike period, he said, but only to serve those who were in strict need. An hotel was opened to accommodate refugees, he said, and a drugstore also provided medicines to the wounded, but in these two cases the court should consider them to have been legally closed as they did not do business with the general public.

### Considered "Test Case"

In commencing his address Mr. Preston, associated with Mr. Chen, stated that the present proceedings was a "test" case which was being watched with the greatest of interest by all landlords and tenants in Shanghai. A legal decision would decide the general dispute in all areas and would be considered extremely important, he added.

Three articles in the Civil Code provided his case, Mr. Preston declared. Article 439 read, "The lessee must pay the rent at the agreed time or in the absence of such agreed time according to custom; or in the absence of such agreement or custom, the rent must be paid at the termination of the lease." Article 435, he said, reads, "If in consequence of circumstances that a lessee is not responsible a thing leased is partially destroyed during the continuance of the lease, the lessee may ask for a reduction of rent proportionate to the part destroyed."

### Closing Said Private Matter

The third article reads, "A lessee of an agricultural land is entitled to a reduction or exemption of the rent if, by reason of force majeure, the fruits of the thing leased decreased or totally failed."

### The Arguments for the Defense

Attorney Preston continued after citing the above articles, "Is that because the Chinese Chamber of Commerce had issued a proclamation they were in fact prevented from using their shops. Their consent to close their premises was a private matter and in no way concerns the legal issue."

"I would like to emphasize that the tenants have not brought their arguments within the four walls of the Civil Code or have shown any other grounds why they should be exempted from payment of rent."

## "Test" Case Over Unpaid Rentals To Be Reopened

### Tenants Refused To Pay Rents For March And February

The "test" case brought by Algar and Company against 13 of their tenants occupying and trading in premises at the corner of Chekiang and Pakhoi roads in the First District Court recently when the latter refused to pay the rent for the months of February and March on account of the Sino-Japanese hostilities during that period, will be reopened in the civil division and argued again.

Counsels for the landlord and tenants, Mr. A. M. Preston and Andrew C.Y. Law, respectively, have been both informed of the decision of the judge who at the last hearing had reserved judgment to retry the case. No date has yet been set.

The decision of the judge has an important bearing, according to the attorneys of both sides, as it will not only definitely set a ruling regarding the payment of rental by tenants who are withholding payment until judgment in the case is handed down but also involves the movement of 10 to 20 million taels.

The argument of the landlord in the case is that the tenants must live up to the terms of the lease and pay their monthly rental. The plaintiffs hold that during the troublous period the 13 tenants who have been residing in houses in the Central District have not been affected in any way. The shops, they say, were opened and the defendants resided in the houses.

The defense set out by Mr. Law was that the tenants had in accordance with a request from the Chamber of Commerce in protest against the Japanese invasion closed their shops for two months. It was not a case where they themselves agreed to discontinue their trade but had followed a patriotic movement arising from a public order.

## SHANGHAI RENTALS REDUCTION

Mr. Wang Ching-Wei  
Is Sympathetic  
To Delegates

NANKING, May 29.—Mr. Wang Ching-wei, president of the Executive Yuan, expressed lively sympathy for the reduction of rentals in Shanghai in order to mitigate the plight of the people as a result of the Sino-Japanese hostilities.

In a verbal reply to a deputation representing these organizations whom he received yesterday, President Wang pointed out that while at Nanking and Hangchow rentals have been reduced as a result of the war, it is only fair that a similar procedure should be observed at Shanghai, the scene of most of the fighting.

Regarding the request that the date of the general settlement of yearly accounts for the 20th year (which was postponed to the end of the current month from last December) be further delayed, President Wang was also sympathetic. However, in both matters he counselled mutual forbearance between those concerned and advised that the questions be referred direct to Mayor Wu Teh-chien so that a speedier solution may be reached.—Kuo Min.

Meeting of Chinese Realty Owners Association re Rent Problem

Fifty members of the above association held a meeting on May 14 at No. 96 Peking Road between 3.30 and 6.30 p.m. Mr. Kwei Yen Fong, Chariman of this association and also a committee member of the Shanghai Property Owners Association presided and the following resolutions were passed :-

1. That the S.M.C. give an explanation as to why it has approved without first consulting the consumers the decision of the Shanghai Waterworks to collect the water rate according to the meter reading, and the S.M.C. be appraised of the disregard of the Waterworks for the position of the estate owners and the welfare of the people, in view of the Company's resolve to cut off the water supply for non-payment.
2. That the rentals of houses north of the Soochow Creek be reduced and remitted in proportion to the scale determined by the S.M.C. for reduction and remission of the Municipal rates, and the Waterworks, the Power Company and the Council be asked to remit the water, and electricity charges and land tax for those periods.
3. That all members refuse to sign contracts for water supply according to the meter system.
4. That Estate owners be advised to construct artesian wells.
5. That the Waterworks be advised to adopt the following measures in the event of the meter system being adopted.
  - A) The meter installation fees and deposits not to be the responsibility of the estate owners.
  - B) The water rate at 6.25% of the rentals to be collected from the tenants direct by the Waterworks.

The estate owners are rigorously pressing their tenants for arrears of rents, and are attaining some results, although the Eastern District remains a serious problem in view of the continued refusal of tenants in this area to pay any rents, which attitude is mainly attributable to the activities of the various rent reduction and remission Associations.

The case of Algar & Co. Estate agents versus 17 tenants of a block of buildings at the rear of the Wing On Co. Nanking Road for non-payment of rents was heard at

2 p.m. May 19, 1932 at the Shanghai Special District Court when the case was remanded for judgement on May 26 at 2 p.m. This case is regarded by the estate owners in the nature of a test case, likely to reveal the attitude of the Court in the matter of rent payments and the outcome will undoubtedly be accepted by the majority of tenants. Further action will be immediately commenced by the estate owners in other cases should a favourable decision be rendered by the Court.

## RATES AND RENTS

The attitude of many Chinese in the International Settlement in objecting to paying rates and rents is causing much concern in the former case to the Municipal Council and in the latter to the property owners. Although there are a number of hard cases, which might be dealt with on their merits, the movement, as a whole, appears to be dominated by an obstructionist spirit and a desire to profit by unusual circumstances, fostered by various street unions and other organizations. The Municipal Council has now the matter of the rates and similar demands under its consideration and it is expected that within a few days some definite policy will be enunciated. With regard to the rent question, Mr. T. C. Britton, presiding at the annual meeting of the Shanghai Property Owners' Association on Monday evening, pointed out that it was a very difficult question on which to lay down any hard and fast rule, for each and every case put forward necessitated individual consideration. The Committee, of the Association, he said, had given a great deal of thought to the matter and felt that consideration should be given to those tenants who were, to all intents and purposes, forced to evacuate for safety's sake the premises occupied by them. It was mentioned by Mr. Britton that it had been reported to the Committee that property owners were experiencing some difficulty in the collection of their rents in areas that were certainly not affected by the recent hostilities in so far as the safety of the inhabitants was concerned. The areas in question included the Central District, the Western and certain parts of the Eastern District of the International Settlement, also the French Concession, and the Committee certainly had no intention of advocating that any allowance be made to tenants in these parts of the town. In commenting upon the need for great care in dealing with applications for remittance of rent, Mr. Britton remarked that it had come to the Association's knowledge that many Chinese tenants who were not forced to evacuate for safety nor were in any immediate danger arranged to take large portions of their premises as refugees at lucrative rates. This was putting the matter in a position as a matter of fact, there has been outrageous profiteering on the part of many Chinese who at the expense of their fellow-countrymen. Although some of these owners and other persons who are connected with their districts have been most helpful and have been allowed to keep people from their homes.

been a great many instances in which refugees have been charged exorbitant rents for the poorest accommodation and, when their money has gone, pushed into the street. It is to be emphatically hoped that persons who have been acting in such a manner towards refugees will not obtain a remission of rates from the Municipal Council or of rent from their superior landlords. As an example of what has been going on, we may say that in conversation with a well-known real estate compradore the other day, we were informed by this gentleman that many of the cheap "hotels," which formerly supplied "bed space" to the poor at ten cents and twenty cents a night, during the recent troubles put up their prices for this "accommodation" to as much as forty and fifty cents per night. In one case, of which we have knowledge, a shopkeeper who is the tenant of a shop and workshop on a ground floor and several floors of flats above (a sub-let) still rents every available space, however, diminutive, nightly to refugees. Business in his shop, he complains, is bad owing to the recent hostilities, but he makes light of the other "little profits."

There is no doubt that the majority of people in Shanghai are considerably the worse off for the happenings of the past few months.

Many have lost their possessions and practically all their business, but we shall all have to take it in the best possible spirit and pull together so that recovery may be as rapid as possible. People who have suffered out of all proportion to others deserve our sympathy and should be given what practical assistance is possible. But this is a very different thing to giving a wholesale remission of rates and rents as some appear to expect. We sincerely hope that Chinese householders will turn deaf ears to foolish agitation and realize that if rates and rents are not paid promptly, the longer will be the time which Shanghai will take to recover from the recent disaster which has overtaken her and that it is to everybody's advantage to do his or her solid best to meet their obligations as quickly and completely as possible. This is an essentially individual matter and there is no better form of co-operation than meeting one's dues without delay. It is to be hoped that business will be all the stronger for the ruin of women who are the worst of the cause of obstruction. It has been to their advantage to have opportunities that will give them the opportunity to do so.

## Association Opposes Cutting Rents Anywhere But Hongkew

## Shanghai Property Owners Body Holds Annual Meeting In Palace Hotel

SHANGHAI MUNICIPAL POLICE  
W. & S. B. REGISTRY.

D 3482

Date 23. 4. 32

Calling attention to difficulties that have arisen for property holders as a result of the Sino-Japanese hostilities, Mr. T. C. Arison in the annual report given at the meeting of the Shanghai Property Owners' Association yesterday afternoon in the Palace Hotel, stated that the question of any allowance being granted in connection with tenancy should be considered in each individual instance on its own merits.

Mr. Britton, vice-president of the association, took the chair yesterday in the absence of Mr. M. L. Sparks who is now on home leave.

The General Committee for the ensuing year is composed of Messrs: A. M. Preston, R. G. Robinson, H. Sander, R. Cassatt, E. E. Sargent, E. Sigault, R. D. K. Kirby, N. L. Sparke, E. A. Sykes, R. M. Van derburg, W. R. Walter, G. L. Whelan, A. W. Bunkill, H. M. Cumme, M. O. Davies, K. Inouye, N. E. Kent, C. F. King, Y. P. Kwei, A. Leone, E. F. McDonald, Y. Meyer, Gordon W. Miles, and Baron Guillaume.

Mr. H. M. Spence proposed the resolution favoring the adoption of the committee named and Mr. J. C. Potter seconded.

Following is the report as given by Mr. Ellison:

"Before dealing with the cash statement I wish to express on behalf of the entire unit their very real appreciation of the work done by your chairman, Mr. W. L. Sparks during the past year. Mr. Sparks left just recently on leave and I can assure you that his advice and assistance have been of the utmost value and it is sincerely hoped that on his return he will continue to give his valued advice and service to this association."

### Balance of The Lesson

"In dealing with the accounts you will notice that at the close of 1934 there was a credit balance with the Maryland & Virginia Banking Corporation of \$7,439.92 as compared with a credit balance of \$1,000.00 for the year 1933. For the year 1934, the balance may be due to the satisfaction of a stock subscription contract as payable less than above in 1933, owing to the fact that after 1934 we were able to collect some outstanding accounts receivable. The considerable reduction in the (fixed) assets for the last year are essentially in connection with the 1934 sale of the business for the year 1934, but for income from investments amounting to \$220.73 and expenses

"During the past year several matters of importance came before your committee and I propose to give you a brief summary of them. At last year's annual meeting, Mr. Roberts mentioned that the National Political Council building was to be erected and suggested that a small room be reserved for the Association to enable it to join the subscription of the National Political Society. It is now at this point that I could advise you that the committee on Public Works, that having many affairs then later. Their committee is to begin the subscription and a sub-committee was

For the last 100 years, the only way to make your business more successful was to build a system that worked for you. Now, with the help of the Internet, you can build a system that works for you, and you can make it work for you, and you can make it work for you.

others would be served best by resuming the chopping of the official plans under protest. I think I can say without fear of contradiction that your committee's views had a useful and beneficial effect on the discussions and actions which followed.

Your committee also had conferences with representatives of the Shanghai Municipal Council regarding the surrender of armaments on consular little deeds and I am happy to say these conferences terminated in a complete understanding between both parties. You will readily see that these questions needed very careful study and necessitated our calling in legal advice and I wish to thank our advisors for the generous amount of time given to our association.

### Content: Fitness Services

A member of the association requested your committee to furnish information on the 1939-40 maximum limits for the settlement and Commission limits for their sponsored to be a great deal of difficulty in supplying the details of the subject. Your committee after discussion this matter decided to approach Mr. Gill of the Shanghai Telephone Company who very kindly consented to attend a committee meeting in order to answer to the best of his ability and questions that members might ask.

Mr. Gill, in addition, in answering ques-  
tions very kindly gave your committee a  
complete picture of the situation from the  
view of the United Telephone Company, took  
over from the previous company and made  
thoroughly clear the whole position. I do  
not propose to go into any detail but merely  
say I am rather desirous of information on this  
question. I do want to communicate or call  
on the representatives who will meet here as to  
the position over obtaining.

The Chicago Waterways Company's proposed system, which has been adopted by the board of directors, will involve radical changes in water charges. Most port companies are expected to have to pay less for water. The company's proposed rates are expected to have to pay more. The company's proposed rates are expected to have to pay more.

Your committee has received communications from some members suggesting that in view of the inflation caused by the emergency situation, the change to the new system should be postponed. As I have pointed out, however, there are expected to benefit by the change, and others to lose. I think the matter should be left to the planning committee to

## REDUCTION OF RENTS AND RATES

### Views To Be Supported By Collection Of Evidence

#### HONGKEW MERCHANTS' RESOLUTION

To enable representatives of the Provincial Joint Office of the Hongkew Branch Citizens' Association to negotiate with the Shanghai Municipal Council, members of the joint office have resolved to collect evidence to support the view, that it is impossible for Chinese merchants to resume business in their district.

On Friday, 35 members of the joint office conferred and in addition to agreeing that evidence be collected to support the view of business resumption, it was resolved that the matter of the reduction and remission in rates be shelved, pending a reply from the Chinese Ratepayers' Association.

In Hongkew recently there has been a wave of resentment against the payment of rates, taxes, and licence fees of all descriptions. The Shanghai Municipal Council has already allowed some relief to shopkeepers and others, who were obviously affected by the war conditions which prevailed in their areas recently, but many of the Chinese are dissatisfied with the Council's proposals. An extensive campaign is under way and the shopkeepers are making a strong effort to gain further concessions.

On Friday the several resolutions were passed by the various Hongkew Branches of the Shanghai Special District Citizens' Federation, and the street unions of Yingtsiang, Ward, Soochow, Broadway, Seward, Yangtzepoo, Dixwell, Urga, Kashing, Hanbury, East Yuhang, Kaifeng, North Thibet, Elgin, Cunningham, North Fukien, North Shansi, North Kiangsi, Tseepoo, Tiendong, Fuhteh, Woonung, and Minghong Roads, at a meeting in the afternoon.

This meeting also decided to collect evidence to prove that business cannot be resumed in the Hongkew districts. When the evidence has been compiled, a protest will be lodged with the Shanghai Municipal Council.

Another resolution was that the question of house rent reduction be postponed for the next four months.

That the matter of the remission of municipal rates in the Hongkew district be settled after a reply has been received from the Chinese Ratepayers' Association; and that a protest be lodged against the reduction of only two months' house rent by Mr. Hsu Shih, acting for the Kwang Nye Estate Company, was also decided by the meeting.

The meeting also passed resolutions that the Hongkew Branches of the Shanghai Special District Citizens' Federation and the street unions should continue to collect evidence to support the view that business cannot be resumed in the Hongkew districts.

## Merchants Of Hongkew Demand Remission Of Three Months' Rental

Exemption Of Payment Of Rents For Months Of  
February, March And April Sought From  
Landlords In Petition

### PAWNROKERS ALSO RAISING HOWL FOR EXEMPTIONS FROM LICENCE FEES

The wave of agitation against the payment of rentals, licence fees and every other form of tax is becoming serious in the Hongkew and adjacent districts. It is reported that petitioners for the decision of the Shanghai Municipal Council for a general remission of rates in areas directly affected by the recent hostilities. Chinese are now demanding a remission of three months' rental in these districts. A demand for exemption has been circulated to landlords. Petitioners bearing on the same subject have been issued to every house to be posted on the doors. In addition, pawnshop proprietors have sent a letter to the Council asking for exemption from payment of one quarter's licence fees on the ground that business is bad. Other demands for exemptions have already reached the Council.

Business depression and losses, directly sustained during the recent disorders in the Northern Districts are the reasons advanced by those seeking relief from rate, rental and licence payments. The demand for the remission of rentals is the most serious aspect of the present agitation, since the Council has already promised a remission of rental for rate payments in certain districts. The demand for reduction of rentals is not confined to the areas directly affected by the time-lapse since disturbances, but are being put forward in districts which were not immediately concerned in the losses. The French Concessions and districts equally far removed from the scene of hostilities are joining in the movement. In the majority of districts not directly affected by the disturbances, the agitation is not so much for rental remission as for rate reduction. But in the Northern districts the movement is definitely for complete exemption. Some of the real estate companies and landlords have already announced their intention to grant partial remissions, but those sponsoring the present agita-

Remission of Rent - notice to shopkeepers in Hongkew District

On April 21, the Provisional Joint Office of the Hongkew District Branch Citizens' Associations, located at 207 Te An Li, North Shanse Road, distributed copies of a poster, translation of which is as under, to the various shops in Hongkew District :-

"This Association has decided that rent be remitted for three months"

The above office, which represents nine branches of the Citizens' Federation, in Hongkew and Eastern areas, came into existence as a result of a resolution passed at a joint meeting of these bodies held at Foh Shing Yuen Restaurant, 152 Canton Road, on April 7 (Vide I.R. of April 8). . While ostensibly subordinate to the Citizens' Federation, located in the Chinese General Chamber of Commerce, this office has assumed the right to act of its own accord in matters concerning the nine branches north of the Soochow Creek.

## Council And Landlords Faced With Heavy Losses As Tenants And Chinese Ratepayers Refuse To Pay Amounts Owng

Landlords in the Settlement and the Shanghai Municipal Council are faced with a difficult problem in the increasing agitation against the payment of rents and taxes by a large proportion of the Chinese community. Fostered by the various street unions and citizens federations in this city, tenants and Chinese ratepayers are refusing to pay the amounts owing prior to the outbreak of hostilities and insist upon big reductions in rentals. Claiming that they have suffered severe losses owing to the Sino-Japanese hostilities in this area, Chinese ratepayers in many instances have refused point-blank to pay rates for the current quarter and declare that they will not do so until the Japanese have withdrawn. The agitation is extending to other sections of the Chinese community and at a recent meeting various Chinese bodies resolutions were carried asking the Council to seek exemption from the payment

The Municipal Council is  
with a similar problem. The  
Council of Chinese ratepayers

the amounts owing would appear to be more serious than was formerly believed. Officials of the Council admit that large numbers of Chinese have definitely refused to pay rates for the current quarter, despite the fact that the Council agreed to relieve them of the burden of taxation for the period of February and March. This was especially applicable to the Hongkew District where many Chinese were forced to evacuate and the majority of whom have not since returned. But the Chinese are demanding more. They insist, in many instances, that they will not pay until the Japanese troops have withdrawn. Their attitude is tantamount to defiance. In this respect they have the support of various Chinese public bodies all of which declare that rates should not be paid while the Japanese forces remain in this area. They claim that they were paying for protection from the Council which has not been given. The contention is made that residents of the Hongkew District have suffered enormous losses as the result of the Japanese occupation of that area.

#### All Over Shanghai

The agitation is spreading. Applications for exemption from the payment of certain licence fees have already been made by a number of organizations claiming to represent groups of licensed artisans. Even the handcart owners have joined the movement and there is no telling, at the present moment, where it will end. The Municipality of Greater Shanghai is also affected. Applications for exemption of tax payments have been made to the civic body and have been turned down. Proclamations

insisting upon payment have been posted in various districts in Nantao and other surrounding areas. But this has not brought much money into the municipal coffers.

A similar agitation has been started in the French Concession which was the district of Shanghai to suffer least in the recent upheaval. The House Rent Reduction and Exemption Committee in the French Concession has sent a letter to the French Consul-General asking him to enforce the order issued in 1930 restricting rentals. It also demands that landlords be prevented from evicting tenants for non-payment of rents. It promises, however, that municipal taxes and water and electricity charges will be paid.

#### Committee Formed

The Municipality of Greater Shanghai, in view of the increasing agitation, for rent reductions has decided to form a special committee to deal with the question. Representatives are to be appointed to co-operate with various Chinese bodies for the purpose of examining individual applications for reductions and exemptions. These will be considered and judged according to the extent of the losses suffered by tenants during the recent hostilities.

In the Settlement, landlords have held conferences on the matter and are at present devising means to cope with the situation.

The position of the Shanghai Municipal Council, however, is occasioning considerable thought in official quarters and it is believed likely that definite steps may have to be taken to cope with the continued refusal of large numbers of Chinese to pay their rates.
